# JAPS WIN FIGHT ON LEAGUE PROTOCOL

## AH! BISHOP COMES TO RESCUE OF MODERN GIRL!

CHICAGO, September 30.—(By the Associated Press)—Bobbed hair, short skirts and songs like "Yes, We Have No Bananas," were defended against banged hair, hoop-skirts, and "Pharaoh's Daughter On The Bank, Little Moses In The Pool." by Bishop Edwin Holthughes, of the Methodist Episcopal Church in an address here last night.

"We criticize their hair, their skin, their stockings, their shoes, their skirts, their cosmetics and their manners," he said, speaking of modern young people. "I suppose when you middle-aged people were young, to hear some of you talk, you would think you were gentle little angels; sitting around on sofas with your hands folded on your laps.

"We never had a finer set of young people in the Methodist church than we have today. More than 30,000 of them attended institutes this summer and 90 per cent of the number listened with attention to serious lectures.

"Don't you remember when the young people used to bang their hair, let it fall all over their foreheads? As between banged hair and bobbed hair, I take the bobbed variety.

"Remember those balloon skirts? When two women met on the sidewalk one had to step off to let the other pass. As between the old hoop-skirt and the present styles, give me the short skirt of today.

"I have heard it stated that the song, "Yes, We Have No Bananas" was a sign of the degeneracy of the times. But what were you singing, you pious old steward, and you staid old church trustee, when you were young? You were singing "Pharaoh's Daughter On The Bank, Little Moses In The Pool, She Fished Him Out With a Telegraph Pole, and Sent Him Off To School."

"Now let us be fair. As between taking sacred characters of the Bible and making hilarious songs about them and the song "Yes, We Have No Bananas," I prefer the bananas."

## Powers Yield To Orientals' Demands

BY HENRY WOOD
(United Press Staff Correspondent.)

**GENEVA, September 30.—Japan won an important victory at Geneva today.**

**The League of Nations sub-commission was dealing with arbitration clauses of the proposed protocol to bring about univarsal peace made important concessions to the Japanese delegates.**

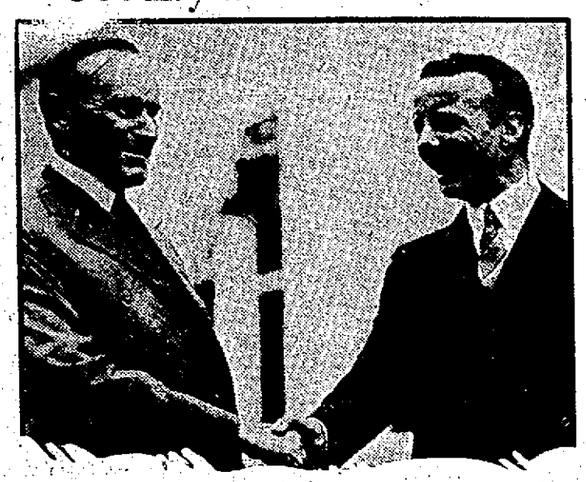

**Amendments proposed by Ambassador Adatci which had thrown the present session into confusion and created a deadlock which threatened the entire project were adopted in part by the sub-commission.**

Briefly what Japan's victory amounts to is:

That the league council or assembly will interfere in domestic legislation of nations, when appealed to by a member nation which feels it is being unjustly treated. Although the subject of immigration was not mentioned, it is considered by many that Japan's interpretation of the clause in question would be that she could appeal to the Hague court and thence to the league against

If Teddy should defeat Al Smith in the New York gubernatorial elections, the Empire State is safe for "Cal", the politicians figure. And the president seems to feel the same way about it judging from his smile.

# IRISH BOUNDARY ROW IN PARLIAMENT

## Deny Attempt Being Made To Coerce Ulster

(BY LLOYD ALLEN)
(United Press Staff Correspondent)

LONDON, September 30.—(By the United Press)—Denying indignantly any intention on the part of the British government to coerce Ulster, Prime Minister MacDonald today moved the second reading of the Irish boundary bill in commons.

LONDON, September 30.—(By the United Press)—The battle of the Boyne, centuries-old struggle between Protestant and Catholic over the boundary line between the north and south of Ireland, was carried into parliament today at a special session called by Prime Minister MacDonald.

The Irish free state and Ulster having declined to agree between themselves on a settlement Britain's labor government proposes to move a bill which will amend the Irish treaty and establish a boundary commission to settle them arbitrarily.

Present intentions are attempts to pass the Irish boundaries bill through all stages, which may take a week and then resume the normal parliamentary vacation which does not end until October 28.

Thus the fate of the labor government admittedly trembling in the balance, may not be determined at this special session—if the session is confined to the Irish question. The government's opponents, however were expected to raise the issue of the trouble with Turkey at Mosul, Lord Parmoor's alleged promise to use the British navy to support the League of Nation arbitration pact, the gift of a motor car to Ramsay MacDonald, the government's dropping the prosecution of a Communist agitator and other embarrassing matters.

While it is from attempts to introduct such extraneous matter that the chief embarrassment to the government may come, it is not impossible that the Irish boundaries bill itself may produce a real fight.

Leaders of all parties were pledged to institute a boundary commission provided for by the bill, if the Irish failed to agree, and it was thought that there would be few difficulties in the path of the measure.

When Premier Craig of Ulster refused finally, to participate in a reshuffling of the disputed counties along the River Boyne, he left the government no choice but to proceed to arrange the boundary in co-operation with the free state.

## ADONIS OF RIDING MASTERS KILLS STATUESQUE RIDING MISTRESS IN FIT OF JEALOUSY

### Suspect

New York police have arrested John Feinstein in connection with Bobo $50,000 jewelry robbery. They believe he may be connected with a gang of bandits who prey upon "Broadway butterflies."

CHICAGO, September 30.—(By the United Press) — George Munding, "Adonis of Chicago riding masters," and pet of many society women, is in the jail at Wheaton, suburb on a charge of killing his sweetheart, Mrs. Julia Abb Douglas, statuesque riding mistress. The tragedy occurred last night just outside of Mrs. Douglas' stables at Hinsdale.

Witnesses told police that Munding was intoxicated. A jealous quarrel preceded the shooting of the woman. Mrs. Minnie Abb, step-mother of the victim and other witnesses, told police.

Munding, according to Mrs. Abb, quarreled with Mrs. Douglas over the shooting of a white horse he had placed in her stables. When Mrs. Douglas told him that Robert Plummer, a young automobile salesman had killed the horse because it sustained a fatal injury, Munding went into another rage. Plummer had paid much attention to Mrs. Douglas, Mrs. Abb said, much to the anger of Munding.

After more quarreling Munding seized Mrs. Douglas by the arm, crying:

"If I can't have you, then nobody else will."

Munding drew a revolver, pressed it against the woman's stomach and pulled the trigger. Mrs. Douglas died almost immediately. Munding jumped into a machine and drove furiously toward Chicago. Police captured him on a description furnished of his machine.

Arraigned before Judge Harner at Hinsdale, Munding was asked whether he pleaded guilty.

"Not guilty—for the present anyhow," Munding replied and he was taken to the Wheaton jail for trial on October 8.

"Did I kill her? Did I kill her?" Munding asked wildly when police seized him. "Oh God, I'd give anything to bring her back. It was that dirty rat. It's all his fault."

Munding is a tall, broad shouldered man of about 38. He is handsome and a skilled horseman and acted as riding instructor to many of the social leaders of Chicago and the aristocratic suburbs. Mrs. Douglas is about 35 and also conducted a riding academy. She was tall and handsome and made a striking figure on horseback.

## Davis Opens G.O.P. Campaign For Ohioans At Findlay

FINDLAY, O., September 30.—(By the Associated Press)—Predicting victory for the Republican state and national ticket in the November election, Harry L. Davis, former governor, and again his party's nominee, opened the Republican state campaign in Ohio here last night.

He praised the reorganization code as being responsible for a great saving to the state and making possible the abolition of the direct state tax levy and attacked the Donahey administration's operation of the state department of agriculture.

Mr. Davis declared that one of the principal reasons why he is a candidate for the governorship this year, is because Governor Donahey accused him of being afraid to run for re-election two years ago.

Charles H. Lewis, of Harpster, Republican, nominee for lieutenant governor, and Mrs. Elizabeth L. Clark, of Steubenville, president of the Ohio Auxiliary of the American Legion, were other speakers.

Mr. Davis reminded his audience that just thirty years ago in the same town William McKinley, then governor of Ohio, had opened a successful campaign for re-election.

Congressman R. Clint Cole presided at last night's meeting.

**Fear On Other Side**

"Two years ago," former Governor Davis told his audience, "I was not an aspirant for reelection because as I stated then, the performances of our pledges demanded my unremitting attention to my official duties and did not permit the spending of months in campaigning. To this decision, the complete fulfillment of our promises is largely to be attributed.

"However, the present incumbent in the governor's office made the claim following my decision not to seek reelection and after it had been impossible for me to reconsider it had we

## To Contest Will Of Noted Actress

BOSTON, September 30.—A contest over the will of Lotta Crabtree, the actress, who left approximately $4,000,000 to charities, cutting off relatives with $100,000 was indicated today.

Beltmuller, of New Jersey, Mrs. Ethel Harndon, of Scranton, Penna., and others have either sent attorneys here or have notified counsel for Miss Crabtree of their intention to contest the document.

The $2,000,000 fund set aside by the actress for the relief of disabled world war veterans, and their dependents, may be matched in amount by her provision for the promotion of farming. The residue of the estate was left to aid graduates of Massachusetts Agricultural College.

# FLOODS CAUSING BIG PROPERTY DAMAGE

PITTSBURGH, PA., September 30.—(By the Associated Press)—The third day of continuous rain found the Monongahela and Allegheny rivers rising here today with a predicted flood stage of 22 feet due late tonight. The precipitation since Sunday afternoon has been 3.02 inches and today there was no indication of a rift in the sodden skies.

PHILADELPHIA, PA., September 30.—(By the Associated Press)—Heavy rain during the last forty-eight hours has caused rivers and other streams to rise rapidly in eastern Pennsylvania. Flood conditions were reported from a number of places with three drownings. At Jermyn, near Scranton, a concrete bridge over Rush Brook, gave way and Samuel Lagman, a merchant, and Emery Avery were swept into the water and drowned.

Mrs. Agnes Notosh, standing on the bank of Mill Creek at Miners' Mill near Wilkesbarre, was thrown into the swollen stream and drowned when the bank gave away.

Hazleton reported eighteen of thirty-seven anthracite coal mines in that vicinity flooded with a consequent cut in production of fifty per cent. Mines in other parts of the hard coal fields were idle because of water in the working are working short-handed.

Railroad washouts and the flooding of country roads necessitating detours, were reported. Seven men were slightly injured when the engine of a miner's train fell into a small cave-in caused by a washout near Frankville, Pa.

Rural street car lines were tied up in some sections of the flood area.

At a Munchchunk, Henry Herman, a contractor, and Louis Eichoff, his assistant, were swept into the Lehigh river while they were repairing the archway of a large sewer. Heavy rains caused a rush of water in the sewer and they were caught in the torrent before they could be rescued.

At Wilkesbarre, Land In Travse came in contact with a blown down electric light wire and was instantly killed.

**Towns Under Water**

POTTSVILLE, PENNA., September 30.—(By the United Press)—Heavy rains of the past 24 hours have caused great damage at Gilberton, and Port Carbon, near here. The water is reported to be 10 feet deep in the streets of Gilberton. The town is isolated and many inhabitants are marooned in second floors of their homes.

At Harrisburg, one thousand feet of the Reading Railroad tracks through Clark's Valley were washed away today when Stoney Creek went on a rampage, flooding farms and destroying numerous bridges.

The waters reached a depth of 20 feet in the lowlands and isolated the

## Spain Faces Military Disaster Abroad and Domestic Outbreaks at Home As Result of Reverses In Moroccan Mts.

(BY FRANK H. SIMONDS)
(Copyright, 1924, By Times-Publishing Company)

WASHINGTON, D. C., September 30.—It would be impossible to imagine anything more tragically futile than the Spanish struggle in the Riffian mountains of Morocco, reports of which continue to crowd the foreign despatches. The war, if it may accurately be described as war, (actually it is little more than magnified Indian fighting) has been going on for years, the cost to Spain in men and in money has already been enormous, and, fatally significant detail, even victory would be without material value.

In point of fact the present struggle has lasted nearly five centuries, Spanish descent upon Moroccan shores pretty nearly synchronizing with Columbus and the American voyage. In that period Spain has from time to time established constal bases all the way from Tangier to Tunis, but every effort to make advances into the hinterland has led to disaster of which the most complete was that which overtook Charles V. at the moment of Spain's European supremacy.

Toward the end of the eighteenth century, the Spanish retired from Oran, in Morocco, which was their most successful establishment, as they had already abandoned the islands commanding the harbor of Algiers. Then, in 1830 the French began their occupation of Algeria, an occupation which during many years was as ill-starred as the Spanish. The conquest of this Barbary state really occupied more than two decades and it was not until the suppression of the insurrection of 1871 that French rule became complete.

Ten years later France seized Tunis, thus blocking the Italian hopes of restoring Roman rule in Africa. Three decades later the Franco-German agreement following the Agadir crisis of 1911 assured for France similar control of the Shereefian Empire although a previous agreement with Britain had provided that France must settle with Spain and that Tangier should remain neutral, that is, that France should be excluded from the African coast facing Gibraltar.

**Spain Got Coast**

Under this arrangement Spain finally acquired title to the Riffian coast, that is to a territory having an area and population approximately the same as the state of New Hampshire. This territory, however, while having a certain strategic value, since it faced the coast of Spain, and a sentimental value, also, since Melilla and Ceuta had long been Spanish was without commercial or industrial value, in fact was no more than a tangle of wild mountain country inhabited by fierce mountain tribes which had never been subdued.

## DONAHEY HEARS ARGUMENT TO SAVE YOUTH

COLUMBUS, O., September 30.—(By the United Press)—Governor Vic Donahey, of Ohio, today heard arguments against the execution of 19-year-old Alexander Kuczik, Akron murderer.

The governor granted a hearing of the youth's attorneys, the trial judge and the prosecutor after scores of Ohioans had appealed for mercy on the grounds that Kuczik has the mind of a ten-year-old.

Donahey asked the clemency board to attend the hearing and probably will be guided by the board's recommendation.

Kuczik killed his 13-year-old cousin, Elizabeth Nagy, with a claw hammer when she spurned his love. Alienists say the crime was a result of Alexander's highly nervous condition.

The youth and his counsel hope the precedent set by Judge Caverly in the Leopold-Loeb case recently, will save him from the electric chair. He is under sentence to be executed October 17.

## $25000 Jewel Theft Is Bared

CINCINNATI, O., September 30.—(By the Associated Press)—Theft of $25,000 worth of diamonds and other jewels from the home of Timothy S. Goodman, of this city, in a daring robbery last Saturday morning, was revealed last night when it became known that for three days Cincinnati police and private detectives have been on the trail of members of a band of thieves who have operated in Chicago and New York.

The box containing the jewels was stolen from a dressing table ten feet from where Mr. and Mrs. Goodman were sleeping. The invaders overlooked a pearl necklace valued at $25,000. Mr. Goodman is president and treasurer of a Cincinnati Paper Box Company and secretary of the Weir Frog Company.

## Bankers Agree To Aid Germany But Not Russia

CHICAGO, September 30.—(By the Associated Press)—Formal approval of the proposal to float half of the forthcoming $200,000,000 loan to the German government in the United States was contained in committee reports submitted to the executive council of the American Bankers' Association which opened its fiftieth general convention here today.

Recommendations that American bankers have nothing to do with the financing of Russia as long as the present Soviet government remains in power were contained in the report.

More than 6,000 bankers representing all sections of the United States were here to attend the opening session. The general convention was opened by Walter W. Head, president, in an address in which he voiced opposition to government ownership of railways, urged vigorous combat against all efforts to give congress the power to over-ride the supreme court and declared agricultural problems were predominantly economic with a remedy in economics rather than politics.

The report of the executive council to the general convention and the meeting of the nominating committee were taken up after the addresses.

## Rum Runners Blamed For Toledo Bomb Explosion

TOLEDO, O., September 30.—(By United Press.)—A terrific bomb explosion today partially wrecked the home of Thomas L. Burton, former chief of the Toledo terminal railroad police.

The Burtons and their two children were in the house at the time but no one was injured. Police believe the explosion was an attempt by rum runners to punish Burton for giving information to federal authorities relative to their activities.

The bomb exploded on the front porch, shattering all the windows in the house and knocking down plastering. Pieces of the cast iron in which it was encased were imbedded in the walls of nearby homes.

Burton told authorities he had been threatened several times recently for giving out information against alleged violators of the prohibition law but refused to give the names of those who threatened him.

## Skeleton Bares Tale of Some Man's Quest For Hidden Treasure

CHARLESTON, W. VA., September 30.—(By Associated Press.)—A tale of a lone man's quest for treasure said by folk lore to have been buried by Indians many years ago in the mountains of Kanawha county is believed by the authorities to have been unfolded by the finding of a man's skelton yesterday in a section of the mountains where rocky cliffs and deep caverns abound.

A weather stained newspaper containing an account of the treasure legend was found near the skeleton and led authorities to believe that the man met death either through a fall, exhaustion or starvation while scouring the mountains for the mound, which in the story has been handed down from generation to generation, covers the hidden treasure.

Physicians expressed the opinion that the man had been dead many months. Nothing was found that would aid in solving the mystery of his identification.

## California To Be Carried By Coolidge By Big Majority In Opinion of David Lawrence

BY DAVID LAWRENCE
(Copyright, by the Times Publishing Company.)

LOS ANGELES, Calif., Sept. 30—California is not as close a state as the various polls and straw votes being taken would seem to indicate.

Having investigated the situation in northern California where unquestionably Senator LaFollette has his greatest strength, the writer came away with the impression that the Wisconsin leader would perhaps carry the bay counties by a narrow vote, but if that turns out to be true Mr. LaFollette will be snowed under just the same by the unusually heavy vote to be given President Coolidge this year in Southern California.

The race here is between Coolidge and LaFollette with Davis third. Little is heard about the Democratic candidate. Had McAdoo been nominated there might have been a different story to tell for this state was strong for McAdoo. Are the Democratic votes going to LaFollette? Undoubtedly many thousands will support the third party ticket but President Coolidge will get a host of what might otherwise be Democratic votes.

**Davis Hasn't Vote Getting Strength**

The Democratic nominee is always well spoken of but he does not seem to have any vote-getting strength in this section. President Coolidge on the other hand, is held in southern California in almost as much regard as he is in Maine. It will be recalled that even when President Harding's popularity be-

## 4000 CHINESE SOLDIERS FALL BEFORE GATES O F SHANGHAI

(BY D. C. BESS)
(United Press Staff Correspondent)

SHANGHAI, September 30.—(By the United Press)—Four thousand Chinese soldiers have fallen in the fierce fighting raging at the gates of Shanghai—the shaviest casualties known to modern Chinese warfare.

Machine gun fire and artillery bombardments continued today, with both sides digging in along the railroad near Sunkang.

Wounded soldiers of the Chekiang army are streaming into the city, many of them seeking shelter in the foreign settlements which already are crowded. Today about 400 badly wounded, arrived.

Casualties in the week-end struggle which became suddenly intensified as Kiangsu troops beat back an unexpected counter attack by Lu Yung Hsiang's forces were about equally divided, each side losing two thousand men.

Although the advantage in the fighting goes constantly to the superior numbers of Chi Hsieh Yuan's army, Lux is accomplishing his purpose—or rather that assigned to him by Chang Tso Lin. He is keeping the Chi Li factions in the south engaged and preventing them from going north to aid Wu Pei Fu against the Manchurian war lord at Shan Hai Kwan.

## Get It Fans? This Game With Ironton Panthers and Buick Masters Is Rainproof

If at first you don't succeed, try, try again is the old slogan being dusted off and revived by the MacDonnell Buick Masters' eleven, in trying to open their local football season. The first game they were to have played was with a Washington C. H. team, a week ago last Sunday. It rained too hard and the game was called off. The second game was with Ashland last Sunday. They say that the rain wasn't what stopped them from playing, but the Ashland team failed to dirty their brand new uniforms on a muddy field.

This Sunday the locals will stack their wares against the highly touted Ironton Panthers, on the field at Sixteenth and Findlay streets, rain or shine. The Panthers have a reputation somewhat like their big brothers, the Tanks, and a game here with them should draw a large crowd. Persons holding tickets for the first two games, will find them valid for this game.

Practice will be held tonight by the Buick Masters and all members are urged to be on hand.

## CLASSIC PLAYS OF THE GRIDIRON

BY JAMES DE HART
Football Coach, Washington and Lee

Only 26 seconds of the first half remained in the Georgia-Dartmouth game of 1921, so it seemed a foregone conclusion that the intermission would come and go with the two teams still deadlocked in a scoreless tie. But in those 26 seconds Dartmouth scored a touchdown, won the game as it proved later and gave me one of the greatest thrills of my football experience.

Dartmouth had the ball on its own 20-yard line. Three forward passes were grounded and on the fourth down Dartmouth punted. It should have been Georgia's ball on Dartmouth's 20-yard line, for the punt went directly out of bounds, but a Georgia end was off side and it was again Dartmouth's ball with six seconds left to play.

Nothing to do but kick or pass, so Dartmouth fell into kick formation with Robertson back. But the ball didn't go to Robertson. Instead, one of the halfbacks took the ball close behind center and started on a wide swing around end. Kicking had been eliminated as a possibility. Georgia's task now was to prevent completion of a pass or gain from a run.

Normally the Georgia system of pass defense was to rush the passer, but this time the defenders fell back to cover the eligible receivers. Meanwhile the ball was still moving with the runner toward the sideline, but it never went out of bounds, for Robertson, after faking to kick, had paralleled the course of the back with the ball. Now he received it on a pass back, just as the halfback was about to be tackled, threw it 60 yards to Lynch, who passed the safety man and scored the game's only touchdown.

The best play conceived can be a fizzle if poorly executed and, conversely, very ordinary plays can be made to produce thrills and touchdowns if smoothly pulled. Before the play I have described was too far under way, Georgia knew it had a pass to contend with, yet it was completed, for a touchdown.

**Dartmouth didn't need the aid of the element of surprise. It had perfect execution. That was enough.**

## "Government Ownership of Public Utilities Would Be Loss To People Of Most of Their Democracy"-Hoover

WASHINGTON, Sept. 30.—Government ownership of public utilities would require the rewriting of the constitution and loss to the American people of most of their Democracy, Secretary Hoover declared last night in address broadcast from 14 radio stations throughout the country.

"What Senator LaFollette proposes," Secretary Hoover said, "is far more than a transitory experiment of government in business— it is a change in our social, economic and political principles that will react to revolutionize our government itself."

Government ownership plans of LaFollette's adherents, the secretary asserted, call for the governments purchase and operation of railways, electrical, and other utilities valued by official commissions at about $40,000,000,000 with two million, seven hundred thousand employes, requiring two billions of dollars annually for bond interest, with an operating budget of 10 billions of dollars a year.

**Impossible Venture**

"This is a financial transaction and venture of a magnitude never before undertaken by any man or any government, Democratic or otherwise—except in Russia," he added. He urged that the American people before embarking on such a voyage, study the capacity of the "vessel to carry the cargo."

The project, the secretary said, would wreck our democracy, and would be a step backward by a country which has found the true road of advancement in these enterprises "through sustained initiative and equality of opportunity to our people with public control to prevent abuse."

Mr. Hoover pointed to the present system of public control as one under which all public utilities have enjoyed enormous growth and constantly improving efficiency and service. It has, he said, through stabilizing rates, reduced the cost of capital by increasing the security for the savings of the American people. The enterprises, he pointed out, are no longer owned by the few, citing that one great service corporation has nearly 40,000 stockholders, while another has more than 20,000.

**Political Aspect Analyzed**

Going into the political aspects of government ownership, the secretary declared that the purpose of the government would be changed from preservation of basic human liberties to that of making money.

Either congress must be the board of directors for the 40 billion dollar business or the project divided and placed under non-partisan commissions or government corporations "somehow free from politics and the dead hand of bureaucracy," he declared. Neither alternative, the secretary said, will work.

## Wife Murderer Denied Right To Appeal Case

COLUMBUS, O., September 30.—(United Press.)—James Brady, Sandusky wife slayer, can now be saved from execution for his crime only by executive clemency.

The next to last step in his fight to escape the electric chair was eliminated today. The supreme court over ruled the motion of Brady's counsel for leave to file a petition in erro rto the court of appeals in Erie county.

Brady's execution date is October 10. No appeal thus far has been made to the clemency board, which would have to recommend commutation of the sentence before it would be passed on by Governor Donohey.

"It sounds very bad," Brady said, when word of the court's ruling was brought to him in his cell in the "death annex" of Ohio penitentiary. "But I still have hope that my counsel will be able to do something for me."

Members of the law firm of Timothy Hogan and Son were to confer this afternoon on what further action will be taken in Brady's behalf. "Of course we will do something more to save his life," Hogan said.

"We may go to the clemency board direct or we may ask the governor to grant a reprieve pending further action."

Rain during the past few days has made this temporary road next to impassable and several machines had to be pulled out Monday.

The other detour is through Bainbridge. The pike through that village is being paved and the detour around the job is through alleys and back streets that are narrow and hub deep in mud. Motorists using this route are urged to use the Chillicothe, Washington C. H. and Wilmington route to Cincinnati to avoid the Bainbridge detour.

# ERA OF GREAT PROSPERITY AHEAD, SAYS PRESIDENT OF BANKERS' ASSOCIATION

CHICAGO, September 30.—(By the United Press)—All signs point to the inauguration of another era of great prosperity, President Walter Head, of The American Bankers' Association, declared today in the principal address to several thousand members of the association in convention here.

"Advanced prices from farm products have brought, for the first time since 1920, a promise of renewed agricultural prosperity with resultant restoration of the purchasing power of those engaged in agriculture and consequent revival of other industry," Head said.

"The cash value of the principal farm products—other than livestock—appears likely to be $700,000,000 greater in 1924 than in 1923. Meanwhile a downward trend of other commodity prices has reduced the disparity between the prices of farm products and the general price level during each month of 1924, compared with the corresponding months of 1923, although the restoration of the pre-war price ratio is not yet in prospect."

Head also sounded a warning against the efforts to curb the powers of the supreme court. The constitution is the nation's guaranty of right, he said.

Head walked a neutral path between the Republican and Democratic parties. Having mentioned Dawes once he quoted John W. Davis, Democratic standard bearer twice and President Coolidge once.

Davis was quoted as saying: "Big business has made this country what it is. We want big business. But it must be honest."

A little later Head quoted Davis again on his opposition to curbing the power of the supreme court.

"Mr. Davis is exactly right," Head said. "And President Coolidge is exactly right when he says 'The people know the difference between pretense and reality. They want to be told the truth. They want to be trusted. They want a chance to work out their own material and spiritual salvation. The people want a government of common sense.'"

## Washington Fans Are Just Plain Dippy

WASHINGTON, Sept. 30—Debonair Washington celebrated last night in main street fashion its first American league pennant.

A driving rain could not drown out enthusiasm. Water soaked street urchins were no more excited than dignified governmental officials. A pouring rain through the afternoon, found the usual crowds in front of the half dozen score boards. Muffled in rain coats or from under umbrellas, the Washington fans, thousands of them, forgot the wet and rooted like college boys. A wild outburst of cheering and shouting greeted the flash that told of Washington's victory over Boston—and the pennant. Umbrellas were tossed in the air, traffic cops forgot traffic, and the white house stopped the wheels of government to send a telegram of congratulation to the Washington team.

All over city last night baseball talk was humming. Cigar stores, hotel lobbies, fashionable cabarets, everywhere it was baseball. The sandlot spirit of main street held the city.

Washington excited and happy gurgled like a two year old over his first toy. Since the day when Ban Johnson organized the American league, a score of years ago, the capital city has waited and hoped for today. And now that the long coveted pennant has been won, Washington, after its first outburst of cheering, has also heaved a sign of relief—the 1924 season with its close finish was a nerve frazzling session for the Washington fans.

When brought before Judge Thomas today Cheek pleaded guilty and after hearing his story the court continued his case for further investigation. Cheek told the court that he was formerly a preacher and that his wife continually nagged him and made their home so disagreeable that in 1922 he left and roamed about the country as a hobo until he returned last June and became reconciliated with his wife. When asked why he returned Cheek declared that one day as he was on his way to work in another city he saw a child thinly clad that reminded him of his own little son and that a feeling at once gripped him that he was needed at home. He asserted that he lost no time in starting for Portsmouth and had ever since supported his wife and child. The wife supported his statement.

# Prof. Sherman of Ohio State, Speaking Before The SAYS ALMOST EVERY CITY IN OHIO WOULD BENEFIT FROM THE SELECTION Chillicothe Rotarians, Boosts Local Canal Barge Route

CHILLICOTHE, O., Sept. 30 — Prof. C. E. Sherman of Ohio State University explained the progress that has been made toward the selection of a lake-to-river waterway and pointed out the advantages of the Sandusky to Portsmouth route in an address before the Chillicothe Rotary club, Monday noon.

"Route No. 3, the Portsmouth to Sandusky route, which practically follows the Scioto Trail, has the best prospects of any of the six proposed routes of being constructed," he stated. "Every city in Ohio, with possibly the exception of Dayton would benefit by the selection and construction of this route by being made accessible to both coal and ore."

By the use of maps and diagrams, Professor Sherman illustrated the advantages of the route passing through this city.

"It is planned," he said, "to build the canal on such a plan that 4,000 ton barges could be operated from the lakes to river."

Following are some of the points in favor of the Central Ohio route which he pointed out:

It is a riverway not a canal; the directest national route; the largest route across Ohio; most summit water, fewer bridges and higher bridge clearances; a beeline from ore to coal; a relief to three valleys from floods; validates the Ohio river, which is now being improved and within two years will have a uniform channel of nine feet throughout.

The cost would be shared by the nation, four states and local regions. Some of the benefits derived from it would be flood protection, water parks, water power, drainage, sanitation, water supply for industries and navigation.

## Wants Mankind To Know Remedy

Well Known Mansfield Resident Recommends Ka-di-ok "With All His Heart," He Says.

MR. C. H. FARQUAR

Possibly there are thousands of others like Mr. C. H. Farquar, 36 S. Mulberry St., Mansfield, Ohio, suffering from a general run-down condition or other ailments due to disorders of the stomach, kidneys and liver, who do not have much faith in advertised remedies. If so, perhaps they may, in the experience of Mr. Farquar, find the key to renewed health and happiness.

Mr. Farquar, who is well-known in and around Mansfield where he is an active member of the Masonic Lodge and Knights of Pythias, gives his experience in the hope that others may benefit from the use of Ka-di-ok, the famous herbal remedy, as he has. Prior to his coming to Mansfield he lived in Edison, Ohio, where he was keeper of records and seals for a number of years. He is at present employed as mail man at the Ohio Brass Company.

"I have always been a little afraid of advertised medicines. However, I had heard so much of Ka-di-ok and as I had been suffering from a run-down debilitated condition and needed something to tone up my system I thought I would investigate. After hearing the Ka-di-ok expert explain it I started taking it regularly every day. I want to say it is a real honest medicine. It has round up the organs of my body and made me feel so good that I want all mankind to know what it has done for me. I can recommend Ka-di-ok to anyone with all my heart."

Ka-di-ok is a wonderful remedy for disorders of the stomach, liver and kidneys which are manifested in auto-intoxication, nervousness, dizziness, rheumatism, insomnia, weakness, indigestion, loss of appetite, etc. If you are troubled in any of these ways buy a bottle of Ka-di-ok at once.

Ka-di-ok may be obtained at all Drug Stores in Portsmouth. —Adv.

# Miss Dolly Wise

**She is here to answer any and all questions concerning love, matrimony, troubles, woes, etiquette, etc. Inquiries should be addressed to Miss Dolly Wise, care The Daily Times, Portsmouth, Ohio.**

Dear Dolly—I am a girl of 19 nd have been going with a boy of 1. Do you think he is old enough or me? I have been going with im quite a while and he comes to ee me every night. Dolly, he says e loves me but he is so jealous e does not want me to speak to ny other boys, or have anything o do with them. We are thinking f getting married. Please give me ome good advice.

B. L. C.

The best advice I can give you is o stay single, until you and your over are old enough to get mar ded. Another bit of advice which think you need is to limit his isits to at least three nights a reek. Every night is too often to ave a beau. When do you read or lo any of the other hundred and ne little things that every girl nust do for her self, such as taking are of her clothes, mending her ose, writing letters, helping her nother and the other members of he family by doing her share of he work. It must be an awful nui ance to have a man hanging round in the way every night. t is also hard on you to have to loll up and entertain him. I hope e reads this and sees himself as thers see him.

Dear Dolly—I shall feel deeply rateful if you will tell me how to ake invisibe ink and how to bring t out. The kiddies are wanting to know all about it an dof course I lon't know myself and I have been putting them off so long I thought would appeal to you for help.

PUZZLED DADDY

Cobalt-chloride salts will make invisible ink by heating and moistening the substance. Use the same as any other ink, then pass over heat to bring out color. Another similar result can be obtained by reducing copper-sulphate to a dilute solution then using as ink. Pass over ammonia fumes to bring out color. Do all this yourself and don't let your young kiddies experiment with it. Safety first, you know.

Dear Dolly—I would like for you to tell me what is "flirting". When a man looks at you continually and throws all his talk at you is that considered flirting?

WANT TO KNOW

If a man does nothing but look at you, when he is talking direct to you, I would not call that flirting, as people are supposed to look at you when they talk with you. Of course if he oggles his eyes, twists his ears and stretches his mouth, he is probably trying to flirt with you, or he may have facial paralysis and can't help it.

Dear Dolly—Will you please give me a recipe for canning green beans.

YOUNG HOUSEWIFE

Wash the beans thoroughly, cook until about half done then can. Fill the jars full of beans and juice, leaving room enough for a tablespoon of boiling vinegar and seal immediately. Some prefer the tin cans to the glass jars, but I think they are too much trouble to monkey with. Beans may also be canned by the cold pack method if preferred.

Dear Dolly—My father owned a piece of property and the deed reads like this: "From Grandfather to Father, his heirs and assigns forever." What I want to know is, in case of my death would my share in this property go to my children only, or would my wife have a share in it also. If so, how much could she hold. If not could I will it to her?

AN HEIR

I should think your wife would be considered one of your heirs, in which case she would get her third and your children would get share and share alike of the balance. However, I would advise you to consult a lawyer, about the matter and have him straighten it out for you.

School Girl—I am not going to print the stamp alphabet any more. I have printed it about four times this year, and I am not going to waste any more perfectly good space with it. If you will send me your name and address I will send it to you, but I think that a school girl will have plenty to do without learning all that foolishness, for that is all that the stamp language is. The proper place for a stamp is on the upper right hand corner and if you find one elsewhere it indicates that the person who put it on did not know any better or they did it through carelessness.

## Sallie Ann Says

I selected one of those lovely French Beaded dresses at The Fashion to wear to "Blossom Time" at the High School tonight. I think it just splendid that we're to witness such a wonderful musical treat in spite of the fact that Portsmouth is theatreless.

Two new beaded georgettes arrived this morning. Both are sleeveless and are elaborately beaded. One is black and the other a light buff shade. They surely are beautiful.

The Fashion is just overflowing with lovely new things well worth your while. Why not come down tomorrow and look over the new modes. The salesfolks will delight in showing them to you.

# Other Women's Teeth

are whiter, clear, glistening—why not yours?

Remove the dingy film that's clouding them—you'll be surprised that your own teeth are as pretty as anyone's—*make this unique test.*

THAT most of us have pretty teeth without ever revealing them, is the remarkable assertion of many high dental authorities.

This is why:

Run your tongue across your teeth, and you will feel a film. A film which you cannot see with your eye, but which absorbs discolorations and hides the natural color of your teeth.

Remove it and your teeth take on a new beauty. Maybe you have really beautiful teeth without realizing it.

Film is charged too with most tooth troubles. It clings to teeth, gets into crevices and stays. Germs breed in it. And they, with tartar, are the chief cause of pyorrhea.

So, besides loss of tooth beauty, film is a serious danger to healthy teeth. You must remove and constantly combat it. It is ever present, ever forming.

Old-time dentifrices were unable to combat it successfully. So most people had unattractive teeth no matter how often they cleaned them. And tooth troubles were a serious problem.

Now modern science has discovered a new way. A new-type tooth paste called Pepsodent that acts to curdle film, then harmlessly to remove it. No soap or chalk, no harsh grit dangerous to enamel.

Mail the coupon for a 10-day tube free. Or, buy a full size tube at any druggist's today. See what beauty lies beneath the film on your teeth.

## JACK DAW'S ADVENTURES — THRILLS OF INDIA

BY ELTON

"Now we're going up into the air," shouted the aviator. And in an instant the plane left the ground. Slowly but surely Jack felt himself riding up into the sky. He peeked over the side of the plane and looked down upon the trees that were now so small they looked like large bushes.

Flip had been in an airplane before so he wasn't at all frightened. He just lay still at Jack's feet. Flop, however, looked pretty scared and he tried to bury his head inside Jack's coat. "Aw, come on out here," laughed Jack, 'this isn't going to hurt you. Just stay by my side and you're safe."

Finally Flop apparently got used to soaring through the space and he hopped up onto Jack's shoulder. "Hang on tight, old fellow," said Jack. And Flop grabbed Jack by the hair. "Not that way!" shouted the little adventurer. And then he reached up and held on to Flop's tail. (Continued.)

# President To Greet Senators When They Return To Capital

WASHINGTON, Sept. 30.—Politics all but forgotten, Washington, official and unofficial, today completed plans for welcoming home its victorious pennant winners.

While the club was in Boston to play its final game of the league season, all activities here were directed toward giving the players a rousing reception upon their arrival at Union Station, scheduled for tomorrow.

President Coolidge will lead in that reception with an address of welcome after the team has been escorted up Pennsylvania Avenue to the ellipse just south of the White House in a parade which bids fair to exceed in enthusiasm any in many years that has marched along the famous avenue. All that can be done to evidence the pride the capital feels in its champions will be done.

The spontaneous character of the greeting was forecast in the wild, almost delirious shouts with which the news of the deciding victory was received yesterday by crowds which, heedless of a drenching rain, followed the scoreboards during the contest with Boston. Umbrellas and hats were flung high and wide and men and boys shouted and danced in glee when the game ended with Washington the winner.

At the White House government business was interrupted to send a telegram of congratulations to Manager Harris while Mrs. Coolidge eagerly told the news to the President.

**BRIDGE WASHED OUT BY FLOOD; FOUR MISSING**

SCRANTON, PA., Sept. 30—When a bridge at Jermyn, near here, was washed away by flood waters tonight, six persons were hurled into the swollen waters of Rush Brook Creek. Two were rescued. Volunteers rescuers are searching the banks of the stream for the four missing persons, two men and two women.

A continuous rain today was responsible for the swelling of the stream.

**AUTO CLUBS IN WAR**

SPRINGFIELD, O., Sept. 30.—War was declared today between the Ohio State Automobile Association and the Springfield Automobile Club, following the announcement by P. Floyd Bixler of the state association, that the local club had been suspended by the state association for non-payment of dues. The announcement indicated that the state association would attempt to set up a rival club in this city.

**Pyorrhea is a disease of the gums—*not* the teeth**

You may take good care of your teeth and still get Pyorrhea. Once Pyorrhea secures a firm hold, pus pockets form, gums become weak and flabby, the teeth loosen and fall out no matter how white and sound they may be.

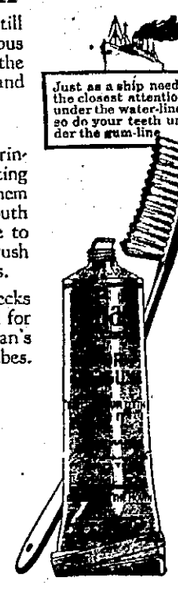

*Forhan's means healthy gums*

It contains the right proportion of Forhan's Astringent, as used by the dental profession in treating Pyorrhea. Forhan's protects the gums, keeps them in a firm, healthy condition, and leaves the mouth sweet, fresh and wholesome. **Stomach Disordered?**

Take Haley's Magnesia-Oil—milk of magnesia and mineral oil combined

There is a cause for disordered stomach. And that cause will most often be found in the lower bowel, the seat of most so-called "stomach trouble." Acids from fermenting, accumulating waste matter must be neutralized and waste matter eliminated. Two things are necessary—both are done at one time with Haley's Magnesia-Oil (milk of magnesia combined with mineral oil).

Both oil and magnesia work together as they should. The oil carries the magnesia straight to the lower bowel where it is needed. Acids are neutralized, clogged tracts are lubricated. Action is prompt but devoid of griping or distress.

Get a bottle of Haley's Magnesia-Oil today. There is no oily taste. If your druggist can't supply you write us. We'll mail postpaid on receipt of price. Trial size, 35c; family size, $1. The Haley M-O Company, Indianapolis, Ind.

**CHURCH BODY BACKS CAPITAL PUNISHMENT WITH BIBLE AUTHORITY**

CHICAGO, Sept. 30.— Declaring that capital punishment is "legal and backed by scriptural authority," the Chicago Lutheran conference of the Missouri Synod, largest of the Lutheran bodies, today issued a statement quoting the Bible in support of the death penalty.

To offset the arguments of those who, opposing the death penalty, quote the Bible in support of their claims, the statement quoted:

Genesis 9, six—"Whoso sheddeth man's blood, by man shall his blood be shed; for in the image of God made he man."

Lev. 24, 17—"And he that killeth any man shall surely be put to death."

**COOLIDGE DISCUSSES PLANS FOR NAVY DAY**

WASHINGTON, Sept. 30.—A busy program occupied President Coolidge today and included discussions of the political situation with various party leaders as well as attention o government business.

Proposals for Navy Day, October 27, were gone over with the president by Senator Wadsworth, Republican leader in New York, and Robert Bruce Howe, Washington, and Marion Epley, Newport, R. I., officers in the Navy League. It was said later at the White House the suggestion had been made that Mr. Coolidge speak in New York City on this date which also is the birthday of the late President Roosevelt.

**DAVIS MANAGERS BUSY ON FINAL ITINERARY**

LOCUST VALLEY, N. Y., Sept. 30.—John W. Davis remained at his home here today preparing material for addresses which he is to deliver in the final presentation of his case to the American people. Meanwhile his managers were endeavoring to complete the itinerary in keeping the number of engagements within reasonable bounds.

Party leaders in the various eastern, western and border states, which the Democratic presidential candidate it to visit, are urging elaborate programs, including not only a rather formidable number of major addresses, but many brief talks at luncheons and at scores of towns through which Mr. Davis' special train will pass.

**JACKIE COOGAN RECEIVED IN AUDIENCE BY POPE**

# How Teams Fared, Intersectionally Speaking

NEW YORK, Sept. 30.—(By the A. P.—The eastern and western divisions of the National and American leagues have retreated to their respective sections to wind up the campaign with the season's honors divided in intersectional games, so far as divisions are concerned.

The western brigade carried off the honors in the National league by a margin of 25 games while the fine work of Washington during the last six weeks enabled the eastern contingent to come out on top in the junior circuit. The New York Yankees also during the latter weeks played above their previous intersectional strength so that the eastern quartet as a unit finished with an advantage of 20 games.

The Brooklyn club which has been making a game fight for the National league pennant, was the best intersectional performer in either league with a mark of .591. Washington and the Yankees were tied for second place with .580 and two national league clubs, Chicago and Pittsburgh, were even for third place with .575. The Boston Nationals proved weakest intersectional performers with a mark of .356, four points below the Phillies.

The records for the intersectional games in both leagues follow:

## Skill of the Veteran McGraw

### Harris, Washington Pilot, Resourceful Leader To Be Tested In Big Series

NEW YORK, Sept. 30—The King is dead; and the king makers are at work behind the scenes, preparing for the world's series convention which will name his successor.

John McGraw, veteran warwick of baseball will nominate the Giants, candidate of the National League. Stanley Harris, new comer in diamond politics, will direct the campaign for the American aspirant, Washington.

Deliberations of the diamond congress will begin in the capital city on Saturday and continue through Sunday after which the struggle will be continued in New York. If more than four ballots are necessary, the fifth will also be taken here and the sixth will be cast in Washington. The site for the seventh and final vote, unless a tie results, will be decided by the much sought after deity, the little god of chance.

## JONES IS HONORED BY FELLOW TOWNSMEN

ATLANTA, GA., Sept. 30 — Bobby Jones, Atlanta's favorite son, and incidentally America's new amateur golf champion, was acclaimed by the home folks today. Mrs. Bobby Jones and Mr. and Mrs. Bobby Jones, Sr., were among the first to greet the young champion. Atlanta citizens have arranged a round of receptions in Bobby's honor.

## Former Jackson Man Is Killed In Auto Accident

JACKSON, Ohio, September 30.—(Special to the Times).—Mr. and Mrs. Edgar Thompson, of Columbia street, received word of the death of their son-in-law, William Garrett, of Charleston, W. Va., and the serious injury of their son, Floyd Thompson, of Barbersville, W. Va., suffered in an automobile accident near Charleston Sunday. Mr. Garrett leaves a wife, formerly Miss Mamie Thompson, and eight children. Mr. and Mrs. Thompson left for Charleston early Monday morning.

## Giants' Infield Has Edge On the Washington Team

NEW YORK, September 30.—(By the Associated Press)—The New York Giants have the edge on their world's series rivals, the Washington Senators, when it comes to offensive and defensive ability of their respective infields, a comparison of the two clubs, based on the latest averages, reveals.

These figures are based on the first-line troops of the Giants, where several major casualties have occurred in the closing stages of the campaign, but they are conclusive. They show that the Kelly - Frisch - Jackson Groh combination of the National League champions has a combined fielding average of .97275, as compared with .96925 for the Judge-Harris - Peckinpaugh - Bluege quartet. At the bat, the Giant four have an even more decisive margin, showing .309 to .267 for the Senators.

Kelly and Judge are nearly on a par, although the former is a harder hitter; Frisch excels Harris both at bat and afield; Peckinpaugh has the edge on Jackson in experience only, while Groh is much abler than Bluege.

Calculations, however, may be upset by the inability of the Giants to put their infield strength on the field. Frisch seems certain to play, but Groh is on the doubtful list. In addition McGraw has indicated he may shift Kelly, who has filled in at the keystone bag, to center field and play Terry at first. Lindstrom, 18-year-old school boy, is first-string substitute for Groh. Thus, with Terry at first, Kelly or Frisch at second, Jackson at short and Lindstrom on third, the Giants would not look so formidable as the figures show.

## Walter Johnson, Pitching Ace Finally Gets In World Series

BOSTON, Sept. 30—With the American League pennant won the Washington Senators of 1924 who accomplished what Washington teams have been trying unsuccessfully to do for forty years, took things easy today. Their youthful manager, Stanley Harris, whose rise from breaker boy at a mine to leadership of a champion team at 27 years of age, has fired the youngsters of the country, went to Washington overnight, accompanied by Walter Johnson, veteran pitcher, and Clark Griffith, president of the club. Before leaving Harris said his team's success was due to its fighting qualities and that they would carry these same qualities against the Giants Saturday. He indicated that Walter Johnson was in good shape, notwithstanding his recent injury and would pitch the first game.

Johnson himself, achieving an ambition to qualify for world series play after a generation of pitching, said this might be his last year in major league baseball.

"I realize that I cannot go much farther," he said. "My arm is still good but I know I haven't got the stuff I used to have. When the season started I had fully made up my mind to retire at the end of this year, if I can get located in baseball somewhere in the West that would suit me perfectly. I want to get settled."

The Senators have orders from Manager Harris to be back in Washington to take up serious practice at their home park at 1 p. m. tomorrow. "We will be ready for the Giants, be sure of that," were his parting words when he left here.

## P. H. S. Must Smooth Out Rough Spots If Hamilton Is To Be Beaten Saturday

(By Coleman Grimes)

The P. H. S. football squad will get down to some real training this week, Coach McComb announced yesterday, and they should be in good shape for the Hamilton, Ill. team by Saturday. If the local boys defeat the Hamilton eleven they will have to get down to real business, at least this is what present indications show. The Hamilton team is at least as large as the Red and Blue squad and they will find no easy match when they go up against them.

It will be remembered that Hamilton beat the locals on the home field last season. The local team this year, although much heavier than last, is lacking in experience. This is the same, however, with their next Saturday's opponents. According to reports they also lost the majority of their lettered men last fall.

McComb at least has a few tricks up his sleeve yet that were not unmasked during the Jackson game last Saturday. The Jackson game was composed of nothing but straight football mixed up with a few forward passes and fewer trick plays. Dudnit and Landeman both have a number of trick plays that they have been practising and they will probably have to open up everything they have when they meet Hamilton. Then, of course, Monk and Heine will be in the game this week, with a couple of other good men on the line and in the backfield.

On the whole, P. H. S. has a fair chance to win, but there can be no fumbles like those in the Jackson game, and the boys will have to resort to something besides plain old-fashion football.

## Blair and Perdue Get Knockout From The Prosecuting Attorney; Fight Called Off

The Huntington Herald Dispatch says:

"The mighty touted, much heralded battle of the fists between Jimmy Perdue, Huntington's pugilistic pride and welterweight champion of West Virginia and Nig Blair, the Portsmouth panther, will not come off as scheduled, Wednesday evening, at League Park.

"The law stepped in last night, with Prosecuting Attorney Lace Marcum as its mouthpiece, and dealt a smashing knockout to the scheduled show. This was at nine o'clock and five minutes after the hour Promoter Harold (Pud) Perdue, brother of the famed Jimmy and high mogul of the West End Athletic Club said the law will not be given the chance to take its course. In other words, said he, there'll be no effort made to stage the show.

"Mr. Marcum in his statement to the press asserted that numerous complaints had filtered into his office during the past few days condemning the scheduled show, which was somewhat boldly advertised, he said."

## Big Truck Plunges Down Embankment; Driver Jumps

Carl Kaps of this city, truck driver for the Taylor Stone Company of McDermott, had a narrow escape from serious injury Monday afternoon about 3:30 o'clock when the five ton Mack truck heavily loaded, which he was driving turned over on the West Side road, about a half mile beyond Dry Run. The big machine went down a 15 foot embankment and turned completely over.

Kaps was driving north on the paved road when a front wheel struck a small rock, causing the steering wheel to be wrested from his hands. The truck ran onto the muddy berm and then slipped down over the bank. It halted just a second in its slide down the bank and in that second Kaps jumped clear of the truck and its load consisting of cast iron wheels for "pony" cars and baled wire. The big machine landed on its wheels and when a Standard Oil Company truck came along it was pulled back to the road, reloaded and driven to McDermott.

## California

(Continued from Page One)

gan to wane in the east he could count on California.

This state of course is preponderantly Republican but in the last two years it has also been growing conservative. California, for instance, gave President Coolidge a majority of 50,000 votes over its own favorite son in the presidential primaries this year. A state which will do that can hardly be counted as easy for LaFollette or as even tending in his direction.

Without endenvoring to explain some of the polls that are being made, it is a strange aspect of the whole thing that not a single man whose judgment in political affairs in past years has always been found by the writer to be accurate so far as California is concerned, is saying this time that LaFollette will carry the state. They will say just the opposite and go so far as to indicate that President Coolidge may run as high as 100,000 majority in California.

LaFollette's strength in certain sections of the state may be conceded but anyone who knows California will recognize at once that what the northern part of the state may do can easily be counterbalanced by the south.

**Southern California For Coolidge**

From this, it should not be inferred that the writer believes LaFollette will sweep northern California. What seems probable is that the Wisconsin leader will run neck and neck with President Coolidge in and around San Francisco. This, however, isn't a strong enough position for any one who is trying to carry the electoral vote of the state and as for southern California LaFollette hasn't a chance. The vote that will be rolled up from this section on election day will be amazing.

There are a dozen reasons for the strength of President Coolidge in this region but there are many more reasons why LaFollette is weak. For one thing a campaign has been begun which paints LaFollette as an enemy of California. A member of congress has booked back into the record and found that Senator LaFollette voted against every one of the tariff schedules in which California was interested. That makes the battle against LaFollette very concrete. For even the redoubtable Hiram Johnson in his most progressive hours never dared to turn down California on certain of her native products and industries.

LaFollette of course, is not without some strong and influential supporters. The Hearst papers are favoring him above all other candidates. Randolph Spreckels of San Francisco is helping to finance the LaFollette campaign. Some of the newspapers which were closest to Hiram Johnson are shouting for LaFollette. He is running on the Socialist ticket so organized labor is making a good deal of noise about its advocacy of the old man from Wisconsin.

But taken all together the vote of California will be a conservative majority and President Coolidge will get it just as John W. Davis would get it if he had been president seeking another term. The outstanding characteristic of the electorate is that there is no cry for change.

## Spain

(Continued from Page One)

All the rich country behind, with an area as great as France itself, with vast mineral and agricultural resources, passed to the French and was in a relatively short time joined with Algeria by railway and military highway. French armies, too, with a minimum of cost in blood and treasure proceeded to conquer the country and, under the enlightened rule of Marshall Lyautey, the greatest of French pro-consuls, Morocco became one of the finest colonial experiments in the world. Even in the great war France was able to draw from it many thousands of troops, Berbers mainly.

Meantime, from 1911 onward Spain strugled to reduce the tribes in her exiguous sphere. Much of the time she was forced to employ as many troops to conquer 8,000 square miles as France was using to subjugate 200,000. The cost in men and money became an enormous drain upon Spanish finances, while the prolongation of the struggle and the failure of the Spanish government and army had natural and evil repercussions in Spain. In the end even the dynasty itself was involved and the resort was had to a dictatorship of the military, which still continues.

Despite the efforts of the military dictator, however, the struggles in Morocco have gone forward uninterrupted and on the whole unfavorable to the Spanish. At the present hour severe fighting is taking place and the native chiefs have served notice upon the Spanish that they will accept no other terms than the retreat of the Spanish to a few coastal towns which are impregnable to native assault.

To abandon the Riff and acknowledge defeat at the hands of a relatively insignificant number of natives is beyond the possibility of Spanish pride. The situation is not unlike that in Cuba, where Spain continued a losing struggle against the Cubans and finally accepted war with the United States because no other course was compatible with Spanish honor.

**Spain Forced To Defeat**

In the end it would apepar now that Spain will have to accept some such solution as the native chiefs have offered, but this at once raises the question of France. Already by a convention of last year France has greatly strengthened her situation at Tangier and it is totally unlikely that she could consent to see a long stretch of territory adjoining her own pacified Morocco left to the control of native chiefs who would be sure to raid across the frontier and seek to destroy French rule. The main route of communication between Morocco and Algeria, the Fez-Taza, Tlemcen-Oran Railway and highway pass within a few miles of the Spanish sphere for a great distance and would be a permanent temptation.

If Spain retires, then France is almost sure to advance and this would mean the eventual absorption by France of what is left of Morocco. This would be a further blow to Spanish pride. Spain, then, seems condemned to fight on until her armies are finally driven out. Centuries of experience have demonstrated that permanent Spanish occupation of the Riff is impossible, while, as I have said, there is no profit in such occupation, nothing but perpetual warfare and never interrupted expense.

Morocco may yet be the graveyard of a great and famous dynasty and the loss of the last considerable colonial estate may prove the signal for a real Spanish revolution, although the present king seems to retain a degree of popularity. But in any event there seems to be no possible outcome of the war this side of Spanish disaster, military disaster abroad, consequent domestic disturbance at home.

so desired, that we had nothing to fear. For that, as much as any other reason I am again a candidate. There is more than a slight indication that the fear is on the other side, for he openly refused to face the public and give an accounting for his stewardship."

**Sees Sweeping Victory**

"Republicanism is going forward to a gigantic victory in November," he continued. "This victory is not to be one only of the national ticket or the state ticket, but one for the entire party."

Outling again the achievements of his former administration, Davis reiterated his platform promises of more reforms if he is elected.

Specifically, he said, he would urge legislation to lessen the cost of road improvements to abutting property owners; to have state cooperation in the care of crippled children extended, and to "take the state department of agriculture out of politics."

"In starting out this campaign for the governorship, conditions that have prevailed in the state recently emphatically demand that we reiterate the solemn dedication of ourselves to the faithful, honest and unreserved performance of the promises and pledges which are made in political campaigns. There has been such a wanton disregard of this obligation and there has been such a glaring demonstration of making light of campaign promises as to constitute nothing less that a deliberate and studied betrayal of the public," he continued.

"The Republican party recognizes the sacredness of the duty to the people that arises with a campaign pledge. It has no patience with those who look upon it merely as a convenient and useful means of currying favor, and on its strength to get into public office with no prior purpose or subsequent effort of fulfilling pledges. Those who are guilty of that must forfeit the public confidence for all time.

**Critics Silenced**

"The first and one of the most outstanding fulfillments of the Republican pledges of the campaign of four years ago was in the reorganization of state government. Founded upon the necessity for greater economy and efficiency in the conduct of Ohio's business, its execution met at first with some of the most bitter and stubborn opposition which any piece of Ohio legislation ever had to face. It has brought many results that have silenced its critics so effectually that no voice now questions its large benefits and the continuance of its operation is secure.

"For many years prior to the reorganization, it was necessary for each incoming administration to enact deficiency appropriation bills to cover deficits which the preceding administration had incurred and which the successor had to shoulder. These deficits had averaged over $1,000,000 a year."

## Two Stills Confiscated; Four Arrests Made

Federal Prohibition Agent Frank W. Rickey, State Officers Hutchison and Farmer and City Officers Brown and Dixon made one of the biggest hauls last night they have ever made in this vicinity for some time. About ten o'clock the raiding party left for McDermott, and acting on a tip that liquor was being manufactured about four miles from that village, they set out on foot to reach the lonely spot where the stills were supposed to be in operation.

After scouting for some time they finally succeeded in finding two complete copper stills with a capacity of about sixty gallons each. The outfits were complete, but no mash could be found, although the officers say that they believe the stills have been operated within the last week. Along with the outfit, four men were placed under arrest.

Those arrested gave the following names: Neil Mitchell, 22, charged with possessing property designed for the making of liquor; John Payne 28, possession; Albert Payne, 38, possession; Clay Mitchell, 30, investigation.

The stills and the quartette of offenders were brought to the police station and the men were locked up to await their trial. One of the cases, Chief of Police Rome Arthur states will go to the federal court.

# With ROOSEVELT IN AFRICA

by W. Robert Foran

© 1924 NEA Service Inc.

BEGIN HERE TODAY

Robert Foran, newspaper correspondent, accompanies the Theodore Roosevelt expedition into Africa in 1909. They arrive at Mombasa, the "gateway to British East Africa," and then make the railroad journey to the first camp on the game-crowded Kapiti Plains. With Colonel Roosevelt are his son, Kermit, and three scientific members of his staff—Major Edgar A. Mearns, Edmund Heller and J. Allen Loring.

After a wonderfully successful shooting trip in the Sotik country, the expedition camps for more hunting at a farm called Soigai-Sai. Going next to Naivasha, the party meets with more good sport. At Nairobi during race week, Roosevelt is paid almost every conceivable honor. Now he is giving the main address at the Railroad Institute at Nairobi, expressing his opinion of the country and its future prospects.

NOW GO ON WITH THE STORY

"It seems to me that what is most needed is plenty of men who know the business of farming and have the flexibility of mind necessary to adapt themselves to and do well in a new country. The next need is for men who, although not farmers, will work until they become such.

"Finally, let the scientific farmer from the old country and the pioneer who has actually spent his life in the new country—especially the pioneer, British or Dutch, from South Africa—

—ROOSEVELT AMIDST HIS TROPHIES.

remember that each is a very short-sighted person if he cannot learn something from the other and cannot recognize the good in the other. The pioneer can profit immensely from the government farms, from the experience of men who by the use of trained modern knowledge, and modern methods and instruments, make farming a paying success; and the scientific farmer from the Old World, with his highly specialized training, needs to remember that, in the harsh conditions under which much of the life of a new country is led, only the rugged men, who have actually grown up facing similar conditions, are fit to tame the country so that others can come in after them and dwell beside them. Each of the two types has need of the other, and can profit greatly by working in hearty accord with one another.

"I say again, stand by each other. Remember that time spent in backbiting is waste of time. Work all of you heartily together so that you may soon do what you will ultimately do—turn this region into a great and prosperous White Man's country."

CHAPTER XV.

Roosevelt's Return to Naivasha.

On the morning of Wednesday, August 4, Colonel Roosevelt, Kermit, Dawson and myself left Nairobi for Naivasha.

We traveled by special train, leaving at 9 o'clock in the morning, and were to stop en route at Kijabe, American Mission. Colonel Roosevelt had promised to lay the foundation stone of the new European children's school at the Mission.

There was a tremendous crowd at the Nairobi railroad depot to see Colonel Roosevelt leave. On the platform a number of the leading officials and settlers pressed around Roosevelt and thanked him very sincerely for what he had said in his speech at the banquet on the previous evening.

"It will make a most enormous difference to the country's future," remarked Lord Delamere to Roosevelt. "Even the most optimistic had not dared to hope for such a splendid vindication of the possibilities of this tropical country from your lips."

How highly his speech was prized can be proved by the fact that the East African Colonists' Association and the Nairobi Chamber of Commerce resolved, by an overwhelming majority, to print and distribute to members of the House of Commons and the House of Lords some 2000 copies of the speech. This is surely a true indication of the trend of local popular opinion in regard to the subject matter of Colonel Roosevelt's speech.

On the way up to Kijabe, the Roosevelts occupied their usual seat in front of the engine, while Dawson and I occasionally rode beside them. The day was dull and threatening, but luckily the rain held off. However, the fact that the sun was shrouded by heavy clouds made the train journey delightfully cool.

The Rev. Mr. Hulburt met Roosevelt on our arrival at Kijabe, and conducted him up the road from the railroad depot through forest-clad hills, to the site of the new Mission school. A large number of American missionaries, their wives and children were already gathered around the site. The new building was to be constructed out of red bricks, which were made at the Mission.

The foundation stone, which Colonel Roosevelt was to lay in position was a handsome slab of white-dressed stone. It was suspended above the foundation by a temporary derrick. No time was wasted over the ceremony, as Colonel Roosevelt was anxious to get back to Naivasha as quickly as possible so as to hasten on the preparations for the elephant hunt to the Nyeri and Fort Hall districts.

Following the brief introductory remarks by Dr. Hulburt, Colonel Roosevelt performed the ceremony, and then made a brief address to the missionaries.

"I am glad to have had the chance," he said, "of being present today to assist in laying the foundation stone of a building which I believe will be associated with far-reaching and permanent good to the people of East Africa.

"Your primary work is among the natives, and I am particularly pleased that you have devoted yourselves so much to the industrial training which must necessarily be the basis of permanent ethical and spiritual uplift among tribes such as these by which you are surrounded; but of course, there must be ultimately also a generally diffused rudimentary scholastic education. I am also glad that you are not trying to turn the African natives merely into imitation or make-believe whites, but are striving to fit them to go back among their own people and themselves act as leaders in the uplift of their race.

"However, I am particularly glad at what you have done with your schools for your own children and for the children of the white settlers around you. The missionary must remember his duty to the white man, as well as to the black man. He should strive constantly for justice and fair treatment for the natives of Africa, and he should no less make it his constant endeavor to be of use and of service to the settler.

"You can, of course, do most in this way through your schools; but you can do much—and I am glad to say that you have done much—through medical work; and I hope also that, wherever the opportunity occurs, you will encourage the building of some little church or meeting-house where the settlers, and especially their womenfolk—can at least occasionally go to hear divine service. I have heard more than one settler's wife express the earnest hope for such an opportunity."

After partaking of tea with the missionaries, Colonel Roosevelt and his party rejoined train and we were soon on our way to Naivasha; and we reached our destination shortly after 5 o'clock that evening. On the way we passed two silver jackals which watched our passing train with the utmost indifference from a distance of less than 20 yards from the track. We also passed several large herds of zebra and a few ostriches. Just before we reached Naivasha, we saw a mangy-looking lion feeding upon a zebra he had just killed less than 50 yards from the track.

Mearns and Loring were on the platform at Naivasha, awaiting our return; and all the porters had lined up, with the native askaris (policemen) in front as a kind of guard of honor. As Colonel Roosevelt descended from the train, the askaris "presented arms" and the porters cheered lustily.

"Jambo, Bwana Mkubwa! Hali gangi, Kingi ya Amerik?" (Hail, Great Chief! How are you, King of America?) came the deep-throated chorus.

It had been at first arranged that Colonel Roosevelt and Kermit should occupy their tents in the encampment of the expedition, but as he found that Mearns and Loring had moved up to the Rift Valley Hotel owing to all of the tents being filled with bird specimens and small mammals, they eventually decided to stay at the hotel also.

The morning after our arrival was very wet and there was a continual downpour of rain. I spent the morning acting as secretary to Colonel Roosevelt, first of all writing answers to his very large and curious mail, and then in taking down his articles on the typewriter. It was an interesting morning, and the letters Colonel Roosevelt received were very quaint. He had letters from all over the world asking him to be kind enough to capture and send back various animals to the writers of the letters.

The requests ranged from mice to baby elephants, and a suggestion that baby elephants, and a suggestion that a quite common.

One man, from Kansas, wrote to protest against Colonel Roosevelt's shooting lions on Sunday.

"What shall I answer him, Foran?" asked Roosevelt, with a hearty laugh.

"That despite all your earnest endeavors, Colonel," I suggested, "the lions have not yet been persuaded to join the 'Sunday Closing League.'"

"Better ignore it and throw it in the waste-paper basket," decided Roosevelt.

## POLICE NEWS

Admitting guilt of driving their automobiles Sunday while intoxicated, Charles Burke, 2-, and Ed. Waugaman, 36, were fined $25 and costs, sentenced to jail for 10 days and deprived of their right to drive for sixty days, by Judge Sprague in Municipal court yesterday.

Both were nabbed by the police Sunday. Burke after he had run his car into a machine parked on an East End street, and Waugaman when he made a poor showing steering his car at Eleventh and John streets.

Joe Branham, who was in the Waugaman machine, had a small bottle of liquor in his possession, and he admitted guilt of possessing. His case was passed for further investigation.

Henry Bundy, 27, took all the blame for the presence of a bottle of liquor in an automobile and he was fined $100 and costs while his two companion, Jefferson Bundy and Charles Miller were dismissed.

Newt. Tingley, 46, colored, charged with possession and selling liquor and Robert Eley, 22, colored, charged with selling, pleaded not guilty and they will be given trial Wednesday.

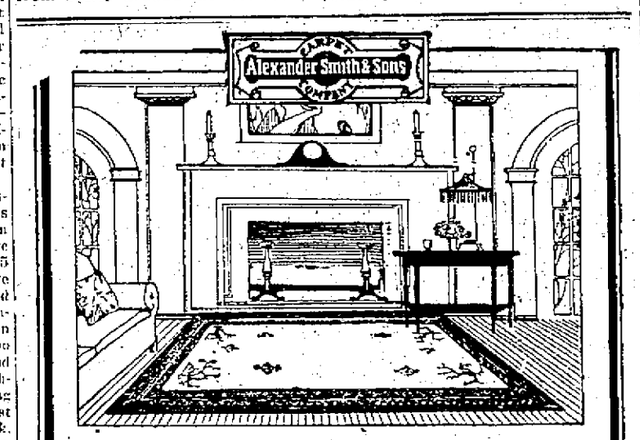

Anthony Smith, 27, negro, arrested for possession of liquor, denied guilt and he was released on $500 bond pending trial Wednesday.

James Cooper, 33, and John Redden, 25, pleaded guilty to possession of liquor and were assessed the minimum fine of $100 and costs each.

J. L. Blair, 2028 Walnut street, was fined $50 and costs and sentenced to thirty days in jail by Judge Sprague of Municipal court Monday when he pleaded guilty to striking his daughter during a row at the home Sunday.

The jail sentence was later suspended pending good behavior.

Blair claimed the daughter fought him back when he sought to correct her for appearing on the street with other girls to whom he objected.

# Weather Forecast Snow And Colder!

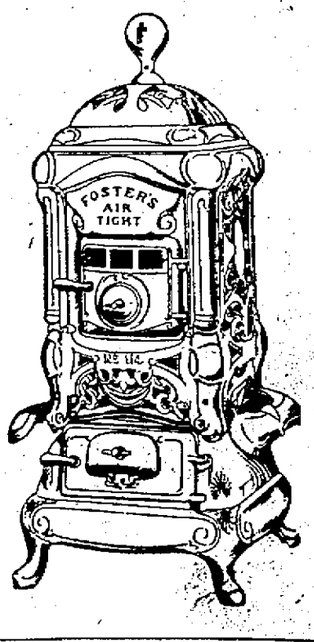

Why wait for winter winds to howl before buying your FOSTER HEATER. The cool weather season is at hand and we can't put it off. So why not enjoy the comforts of a Foster these chilly mornings and be fully protected when winter really comes.

We have the most complete line of coal heaters in the city; come in and look them over. Let us show you why the Foster Hot Blast leads the field in this particular style of stove. Allow us to further demonstrate to you what a simple thing a Hot Blast Stove really is.

A Reznor positively is the best stove for bathrooms, bedrooms, or any place where flue connections are impossible. They are odorless and are powerful heaters.

Allow us to prove that a Hot Blast feature increases the foundry cost only a few cents. Don't pay a high price for a stove of this type when you can get a Foster, a real, quality stove, at a price that is right. Come in, let's talk it over.

# International Rotary President Delivers Inspiring Address At Huntington Meeting

## Says 1850 Clubs, 105,000 Members Are Doing Splendid Work

Five hundred Rotarians from the twenty-second, twenty-third and twenty-fourth districts assembled last night in the dining room of the Hotel Frederick at Huntington to listen to an address by Everett W. Hill, president of Rotary International.

Rotarians from three states heard and saw their international president for the first time last night. Large delegations were in attendance from Ashland, Ironton, Portsmouth, Charleston, Logan, St. Albans, Parkersburg, Moundsville, Morgantown, Beckley, Mullens, Montgomery and other West Virginia, Ohio and Kentucky towns and cities. The big Frederick dining hall was taxed to capacity by the visitors and the Boy Scout band, which played a number of selections, had to be placed in the lobby of the hotel, there being no room for it in the banquet hall.

"Exclusive of religion, Rotary is the greatest and grandest movement of modern times," Mr. Hill declared.

"When Rotary, with its ideal of service and fellowship, enters the hearts of men of all nations it will mean the destruction of the barriers of political, religious and racial prejudices that now impede progress towards Rotary's supreme purpose—international peace.

"There is world power in Rotary and it is expressed in the 1,850 clubs, scattered throughout twenty-eight countries of the globe with a total membership of approximately 105,000 righteous, honest, clear-thinking men, all immersed in the spirit of Rotary," the international leader asserted proudly.

The address of Mr. Hill was preceded by an elaborate banquet, much joking and many smiles, songs by the Tri-State Rotary quartette, and other features.

In addition to the presence of International President Hill, Huntington was honored at the meeting with the attendance of Roy Yoke, of Morgantown, district governor of Rotary for the twenty-fourth district, which is West Virginia.

Mr. Yoke introduced Mr. Hill with an impressive discourse about the International Rotary organization and its relation to West Virginia and the Ohio Valley.

"Every Rotarian among the grand old hills of West Virginia feels great pride, I know, in the fact that an international president has chosen to visit their state. We are honored and appreciate it, and I now have the pleasure of introducing to you Rotarians Oklahoma's own great Hill, Everett," smilingly declared District-Governor Yoke.

### Norman Is Called

But one introduction is not enough for an international figure like Everett Hill thought Frank W. Robertson, president of the Huntington Rotary club, who presided, for he called upon John E. Norman, a member of the international board of directors of Rotary and a close personal friend of Mr. Hill for another introduction which was quickly forthcoming.

Mr. Norman declared that the visit of President Hill to this section presaged an era of Rotary prosperity and progress for West Virginia and constitutes one of the greatest of most recent honors bestowed upon the state. He also told of how Mr. Hill came to be president of the Rotary reganization, of his rise from an obscure club secretary up through the ranks to the high office he now holds.

President Hill opened his remarks concerning the future of Rotary with the statement that he considered the gathering last night a worth while tribute to Rotary. He told of the organization of the first Rotary club nineteen years ago by four men, of its gradual growth, of its reverses and its triumphs, of its extension to the far corners of the earth, of its missionary spirit, disregarding race, creed and everything except the inner man.

"Rotary is taken more seriously in the foreign countries than it is in American communities. The people of these nations see in Rotary a torch of freedom that is going to lead them out of chaotic conditions into the light of world peace and prosperity," he declared.

# "Over-Confidence" of Republican Leaders and Voters Feared By Chiefs

(BY FRASER EDWARDS)

(United Press Staff Correspondent)

WASHINGTON, September 30.—(By the United Press)—Over-confidence of Republican leaders, workers and voters, is the only fear that G. O. P. managers entertain today regarding the election of President Coolidge to succeed himself. With that in mind, the Republican managers are running what politicians called a "Scared Race." This is done, they said, to insure Republican voters turning out in force on election day.

But as a matter of fact there is nothing "scared" about the G. O. P. campaign. Despite the favorable impression that John W. Davis apparently made on his western tour, the Democratic candidate is not conceded a single state that he visited in the official calculations of the Republican manager.

Privately Republican leaders admit that Davis may carry Missouri but they refuse to place West Virginia, his native state in the Democratic column.

Nor is there any fear either at the White House or Republican headquarters here that Senator LaFollette will carry enough states to throw the election into the house. They claim that Coolidge will receive as high as 315 votes in the electoral college. But conceding that a sudden switch comes in some of the present doubtful states, they have figured out an irreducible minimum of 274 votes for Coolidge.

Granting that Davis carries the "Solid South" all the border states and the southwest including New Mexico, Arizona and Nevada, Republicans say the Democratic candidate's total vote cannot exceed 192. And should LaFollette carry Wisconsin, Minn., North Dakota, Montana, Washington, Wyoming, Iowa and Nebraska, they say that 62 votes is the best the Independents can expect to get.

## Local Autos In Accidents

The Chillicothe Gazette says:

"Cars driven by Mrs. George Targee, East Main street, and Joseph Hughes, Portsmouth, collided at Second and Paint streets. The latter's machine lost a wheel and running board while the fender of the other car was damaged.

Thomas Brushart, Portsmouth, drove his machine into the rear of a car belonging to James Keating, West Main street tire dealer, which was parked in front of his place of business Sunday night. The rear end of Keating's machine was damaged.

## Start Work On New Restaurant

## Hospital Boosters Enjoy Little Chat

Busy pedestrians in the down town district this morning watched with interest a brief encounter when John Barron, donor of the land where Mercy hospital stands, and Geo. D. Selby, president of the Hempstead hospital commission stopped to pass the time of day and discuss their respective hobbies. What were they talking about, these two men, one of whom has passed his eightieth milestone and the other who is approaching it? Hospitals? Maybe. But nobody listened in, though many glanced with interest at the two, both outstanding figures in Portsmouth as they spent a few moments in earnest conversation.

## How Not To Be a Wall Flower

By Mrs. Bertha Englebrecht, Member of National Institute of Social Dancing

Have you ever been up against it? I'm talking about the wall. If you have, whether you are the timid violet, "blushing unseen," or the bold, crimson rambler, you know the sensations of being a "wall-flower" and you want to know a speedy, sure cure.

In writing an article on how to avoid the wall, I can give advice only to girls who can dance, but who occasionally find themselves keeping intimate company with something to lean against. For those who cannot dance, advice is superfluous. A course in dancing lessons would be more helpful.

There are many reasons why some girls, who are good dancers, will unfortunately hide part of the wall at a dance. Let me describe t blunder a young friend of mine made. She is a young girl, very sweet but extremely impulsive.

She accepted an invitation to a dance from a young man, and the next day, when she was invited to the same dance by another youth whom she favored more, she broke the first engagement.

The young man with whom she broke the date was very "sore" and he told all of his friends at the dance about it. The girl was very much a wall-flower that evening because the other boys were afraid to ask her for a dance for fear she would slight them if she had a more favorable invitation. The moral of this little tale is obvious: be considerate of the boys—they are just as gossiy as girls. Here are some other tips which will enable you to nip the wall-flower habit in the bud.

1—Be able to fill in that awkward pause just after a dance. The memory of many an otherwise delightful dance has been marred by an awkward silence which neither partner was able to fill. Say something pleasant that will make your partner feel that you have enjoyed the dance.

2—Don't "hang on" to your partner—be ready at any moment to let him go, and he will be equally ready to return again.

3—Develop talk power. For the young boy especially, plenty of lively conversation is always acceptable. The very quiet girl is seldom popular at dances of young people, because the young boy does not feel at ease with her.

4—Remember that the man is the leader. The first place in the garden by the wall goes to the girl who insists on leading her partner. This is sometimes very well meant, as in the instance of the girl who feels that she is a better dancer than her partner and wishes to be genuinely helpful. Invariably this help is unappreciated. Just be patient.

## SOCIETY

## Enjoy a Good Orchestra? Well, There Is Real One Playing at Columbia This Week

When it comes to picking good orchestras, just leave it to Fred N. Tynes, manager of the popular Columbia.

He has picked another winner, this time, Hod Williams and his Manhattan Merrymakers. It is a real orchestra and received many encores at the opening performances Monday. The orchestra embraces real artists in their line and the players play so many varied instruments that they resemble a regular Conn factory.

And they can sing, and sing well, especially Hod Williams, who has a fine voice of surprising range. There is no foolishness about this organization. They are out there to play and that's what they do to a queen's taste. It is a genuine, full-blown-in-the bottle orchestra with a real leader. For further proof, just drop around to the Columbia and hear it. You'll enjoy it.

The building for a number of years was occupied by W. J. Friel, a local automobile dealer. Its dimensions are 42 1-2 by 81.

"We bought the building as an investment, and after making some improvements it will be for rent," Mr. Malavazos said Tuesday.

## Red Cross Will Send Xmas Bags To Uncle Sam's Soldiers In Canal Zone

By Sidney Strange)

Christmas is coming.

We felt sure of it when we poked an experimental nose out into the cold air this morning, and we were doubly convinced when we dropped in for a chat at the Red Cross office. For there, spread out on the desks and tables were 20 gay cretonne bags, destined for 20 of Uncle Sam's soldiers who are now on duty in the Canal zone.

Twenty neatly staked piles of presents to go in the bags, each containing a deck of cards, handkerchiefs, a pen knife, mechnical pencil and tobacco. The workers in the office were busy typing the cards to accompany each bag, for Portsmouth's Christmas shipment must be in the mails today.

The bags travel by rail from here to Brooklyn. There, through the courtesy of the Quartermaster General of the United States Army, the bags will be transferred to army transports in which the Red Cross is allowed free space for these Christmas gifts for the boys who will spend their holiday in the land of tropical sunshine, far away from fir trees and the jingle of sleigh bells.

The bags were made by the Women's Opportunity Auxiliary of the Second Presbyterian church.

## Things Seen in Portsmouth

Three prominent business men standing on a down-town street corner swapping stories about false teeth. One of the men, who must have thought his were the "alligator's adenoids," yanked them out and showed them to his friends.

Married man promenading down Chillicothe street with two girls, one of the clinging vine type, had her arms around his neck. This was in broad daylight too.

Two girls still knee-deep in their teens puffing away on coffin nails.

Eleven in one family riding home in a poor down-trodden flivver.

Two cake-eaters waiting an hour on a down-town corner for two kiddoes, who failed to show.

Married man meeting two sweeties on the same corner.

# WASHINGTON CINCHES PENNANT; FIRST WORLD SERIES GAME WILL BE PLAYED NEXT SATURDAY

## Twill Be Staged in Capital City With New York Giants

NEW YORK, Sept. 30.—(A. P.)—Washington Monday clinched the first pennant it has had since breaking into big league baseball exactly forty years ago, and, as the flag bearer of the American league will fight it out with the New York Giants, four time National League champions, in the first game of the world's series starting next Saturday at the Capital City.

By defeating the Boston Red Sox Monday afternoon, the Senators brought to a successful climax one of the greatest diamond battles in history and accomplished the down fall of the New York Yankees, once proud world's champions, who last night repose in second place two and a half games lead behind the leaders. The Yankees have two games to play with Philadelphia Tuesday while Washington has one more with the Red Sox, but regardless of the outcome of these, Miller Huggins must step off the American league throne after a three-year reign. He does so in favor of Stanley Harris, pilot of the Senators and the youngest manager who ever lead a major league club to victory.

Washington's rise this year under the aggressive leadership of the 28-year-old Harris, a major leaguer only five years and experiencing his first managerial test, is one of the most dramatic achievements in baseball annals. This fighting youngster will meet one of the greatest strategists of the game when he takes the field against John McGraw, gray-haired "master mind" of the Giants.

Sharing the glory of Washington's triumph with Harris are Walter Johnson, one of the greatest pitchers of all time, and Clark Griffith, now president and former manager of the club. In his eighteenth season, Johnson has been the mainstay of the team's twirling corps and now will realize a life-long ambition to pitch in a world's series.

Griffith, the "old fox" is credited with being "the man behind the gun" in the Senator's campaign and having much to do with the club's successful strategy.

Washington's first flag in the '24 seasons the club has been in the American league was won after a terrific closing fight in which Harris and his men came through to victory on foreign fields. It is taking no credit from the Senator's victory, however, to say that they were friendly fields. Nearly everywhere Washington has appeared in its final drive, fans eager for the overthrow of New York cheered the Senators on. In Boston spectators Monday accorded the victors an ovation of only slightly less volume than that which might have been expected in their home city.

Though the club showed it possessed consistent strength throughout the last part of the campaign, Washington nevertheless is one of the "darkest horses" to triumph since the Boston Braves leaped to the front a decade ago. New York has been generally picked to repeat on the basis of its brilliant world's series exhibition with Detroit, Cleveland and Philadelphia "doped" as the most menacing opposition. The Tigers hung on until nearly the finish and dealt what proved the knockout blow to the Yankees when they took three in a row from the champions on the last western trip. Washington climbed slowly but surely to the top. From seventh place after a month of campaigning in May, they rose to fourth position the middle of June and to second on July 19. Shortly afterward they had a brief experience at setting the pace only to have the Yanks sweep back to the top. The Senators clung to second position until August 28, when they dislodged the Yankees with an 11 to 6 victory over the Hugmen. Thereafter Washington was never headed, although earlier this month the Yankees managed to pull up into a brief tie. That last series with New York in Washington took three out of four proved the turning point of the race. It gave the Senators the added bit of confidence they needed for the final dash and took something of the edge off Yankee hopes.

Washington has had clubs in four leagues since 1884, but never has been able to finish higher than second.

# Senators Trim Red Sox; Win First Pennant in 40 Years

Boston, Sept. 30.—Washington won its first American league pennant by defeating the Red Sox Monday, 4 to 2 and earned the right to meet the New York Giants in the worlds series which is to open in Washington on Saturday. When the last Boston player was out in the ninth inning and the victory of the Senators was assured, a crowd of 15,000 Boston fans cheered the visiting team as it came from the field. Clark Griffith, the veteran owner, Stanley Harris, the "boy manager" and Walter Johnson, foremost pitching ace, who will take part in his first world's series after eighteen years in the big leagues were applauded in turn.

Fred Marberry, relief pitcher of the Senators who held Boston scoreless for the last six innings today, will be named the hero of this deciding game. He has acted as relief pitcher in all three games played in this series and has worked in fifty games for Washington this season. Left hander John Zachary was none too effective in the first three innings, but Marberry stopped the Red Sox.

Washington made its bid early for the victory that would give it the pennant regardless of what the New York Yankees do in their double headers against Phila tomorrow. Off Curtis Fullerton in the first with two out, Rice singled through short, stole second and went all the way home when O'Neill's wild throw caromed off Lee's glove. In the second the Senators made two runs. Peck singled and scored on singles by Ruel and Zachary. Ruel scored from third on Liebold's single to right. These three runs off Fullerton were enough, as the event proved, but the Senators added a fourth off John Quinn in the eighth inning. Stanley Harris doubled against the left field fence and went home on a clean single by Rice. Zoston had all its chances early in the game. Singles by Williams and Wamby let the former home in the first. Veach scored in the third when he singled. Boone was hit and Joe Harris bunted. Ezzell's harsh grounder off Zachary's glove let Veach score.

Throughout the game Peck and Stanley Harris played wonder ball. In the last half of the ninth with one out Harris picked up pinch hitter Clark's grounder, tagged second and with a quick pivot and throw, almost without looking, got the ball to Judge in time to double up the batter and retire the side.

## Washington Slab Crew Is Capable

(BY BILLY EVANS)

WASHINGTON, Sept. 30—The great Walter Johnson is the ace of the Nationals' pitching staff. The veteran left handers, George Mogridge and Tom Zachary, are having the best year of their careers. The rookie Zahniser, a right hander, has done very good work. In Fred Marberry, a recruit, and Allan Russell, the veteran spitballer, Washington has probably the best relief pitching in the major leagues.

Manager Harris has handled his staff with excellent judgment. Johnson has not been used as a pinch pitcher and has always had his required rest. The result—a big year for Johnson. The left handers, Mogridge and Zachary, get plenty of work against clubs that don't like southpaws. Marberry and Russell have been used almost exclusively as relief pitchers and with great success.

The Nationals have a very good pitching staff that has been greatly helped by strong defensive play.

NEW YORK—The five-star pitching staff of the Yankees failed Huggins this year. For three previous seasons it had carried the club to success.

Southpaw Pennock has been the only consistent performer. Injuries and illness handicapped Sam Jones. Bush and Shawkey have been brilliant at times and just as erratic. Hoyt, seemingly with a world of stuff, has had his troubles winning. Gaston, rookie, has helped considerably.

Lack of consistent pitching that has featured the play of the Yankees since 1921, has been the club's biggest handicap.

Coming into the home stretch the Yankee staff has been displaying its real ability. Such pitching throughout the year would have early cinched the pennant for New York.

DETROIT —Southpaw Whitehill easily rates the star of the Detroit staff. This rookie pitcher has tided the Tygers over many a rough spot in the race. Stoner, another recruit, who got away to a good start, slumped late in the season. Rip Collins has been very good at times, not so good at other times. Holloway, a big right hander, in his second year has performed consistently all year. Wells, a recruit southpaw, has done good work in his first year. Cole has disappointed, while injuries have handicapped George Dauss. Despite this Dauss has done great work.

RATING—Washington has the best balanced pitching staff of the three mentioned. It is not a great staff but a very good one. Johnson stands out. While many southpaws in the American League have more stuff than Mogridge and Zachary, these brainy veterans are hard to beat. They pitch with their heads as well as their hands. Marberry, a big right hander, who has starred in the role of relief pitcher, may be the sensation of the series.

Pennock, as in 1923, is the dominant factor on the Yankees' staff, while Whitehill, Dauss and Holloway are the consistent Tyger performers.

### WOMEN MUST HOLD HUSBAND'S PERMIT TO TRAVEL IN MEXICO

MEXICO CITY, Sept. 30.—The Mexican minister of the interior has issued orders that American women wishing to travel in Yucatan must furnish written permits "from husbands or guardians."

Otherwise they must be refuged permission to land at Progresso and must return on the vessel on which they arrived.

The immigration authorities telegraphed the ministry that "strong contingents of women from the United States continue to arrive, some seeking divorces, others merely diversion." The authorities complained that the latter are "behaving in an unedifying manner."

# STOCK MARKET STEADIES AFTER EARLY SLUMP IN PRICES

## Rails' Strength Overcomes Reactionary Trend of Market; Oil Prices Drop

NEW YORK, Sept. 30.—Uneven price movements characterized today's quiet stock market, which was featured by the strength of southwestern railroad issues, several of which touched new highs. The close was irregular. Sales approximated 700,000 shares.

NEW YORK, Sept. 30.—(By Associated Press.)—Reactionary price movements prevailed at the opening of today's stock market, further selling apparently being induced by the stiffening of money rates. Initial changes, as a rule, were small. Oils continued to react on unfavorable trade news and the low and medium priced rils fell back on profit taking. Early declines were extended to a point or more in a dozen stocks, including Atlantic Refining, Famous Players, Cushman's Bakery and Texas Gulf Sulphur, while American Can, Baldwin, Colorado Fuel and several others yielded fractionally. Subsequent bidding up of Atchison and other rails and Public Utilities steadied the list. Consolidated Gas, of Baltimore, was lifted nearly three points to a record high at 151¾, while Colorado and Southern touched a new to p at 42¾ up 1¾. General Electric, Missouri Pacific preferred and American foreign exchange power and the certificates advanced a point or more. Foreign exchange opened steady.

Although the oils and a few specialties continued heavy, prices generally showed an improved tone in the late morning trading despite a higher renewal rate for call money.

Cosden was hammered down to a new low at 22⅜ and Standard Plate Glass and Columbia Carbon established new minimum prices at 18 and 39¾ respectively.

American Can was in rather free supply on the declaration of the regular quarterly dividend of 1¾ per cent, but exceptionally good buying made its appearance and the stock rallied a point from its low figure. United Drug was marked up 3 points and General Electric, American Tobacco, American Water Works common, Worthington Pump and William Wrigley also recorded substantial gains. Lehigh Valley touched 61⅜, the highest price since the segregation of the coal properties. Call money reiced at 2½.

## Wheat Touches New High; Corn and Oats Gain

CHICAGO, Sept. 30.—Fresh buying on the part of houses with export connections lifted the heat market today to a new high price record both for the December and the May delivery, after European demand for flour as well as wheat was reported. Besides in some quarters much stress was put on an estimate of the United States Department of Agriculture that the total overseas supply of wheat was 685,000 bushels, a total greatly below recent estimates from European authorities.

Opening prices, which ranged from ⅜c lower to ⅝c higher, with December 140¾ to 141 and May 1.46¼ to 1.46½, were followed by a slight additional sag for deferred deliveries and then by material gains all around.

Corn and oats turned upgrade owing to sympathy with wheat. At first, however, the corn market was easier as a result of current opinions that most of the frost so far reported was of a character likely to benefit the corn crop. After opening at ⅝c off to ⅛c up, December 1.09½ to 1.09⅝, corn showed a moderate general decline and then scored gains.

The close was irregular at ⅛c net lower to ⅞c gain, December 1.09⅞ to 1.10.

Oats started unchanged to ⅝c higher, December 52½ to 52¾ and later held near to the initial range.

Higher quotations on hogs steadied the provision market.

The close was unsettled, ½ to 2½c net higher, December 1.41⅝ to 1.41¾ and May 1.47⅛ to 1.47¼.

## Bond Prices Irregular; Higher Money Rates Discourage Buying

NEW YORK, Sept. 30.—Bond prices were irregular early today. Higher money rates continued to discourage buying.

Mexican issues fell back as the mystery surrounding their recent advance was cleared up by the announcement that an offering of 50,000,000 Mexican 4 per cent bonds would be made by a Texas banker, virtually unknown in Wall Street.

Profit taking reduced the gains of railroad liens although Frisco issues which led the list in activity, recovered about a point each. International Great Northern adjustment 6's also resumed their upward move, but Northern Pacific 4½'s, Burlington 5½'s, and "Big Four" 5's B., Wheeling and Lake Erie 4's and Chicago, Indianapolis and Louisville 6's yielded 1 to 1¼ points. Oil stocks were inclined to heaviness as a result of further gasoline price cuts. The $20,000,000 bond issue of the Paris-Lyons-Mediterranean railroad offering today as oversubscribed.

## Deal Through a Broker

When buying a home, lot or farm a considerable sum is usually represented in the transaction—certainly enough to cause both parties involved to want the deal and records handled right.

That's where an established dealer is necessary.

You want the best possible purchaser. The one who will give the best price and payment.

No one is better able to find such a buyer than an established broker.

COOLIDGE COMMENTS ON PROGRESSIVES' DIFFICULTIES

NEW ORLEANS, Sept. 30—La Follette headquarters for Louisiana here gave out today the text of a telegram from President Coolidge with reference to the situation in this state where LaFollette-Wheeler electors have been barred from the ballot in the election in November because of a state law relating to party affiliation.

The message, which LaFollette leaders said was received today, follows:

"Replying to your telegram, it is my desire that full and free opportunity be afforded under the state laws of our country for an expression of the popular will in the election of all public officials. To my regret there are states in the union where the law is such that this is not possible and it is too late now to change such laws. While I am heartily in favor of party government, I believe that when a contest is made in a primary which is open to participation of all the people, it should go far to determining what candidates are to be presented at the coming election."

SAYS LA FOLLETTE'S CANDIDACY ILLEGAL

LANSING, Mich., Sept. 30.—Senator Robert M. La Follette's candidacy for the presidency is illegal in Michigan, in the opinion of Secretary of State Charles G. Deland. He does not, however, contemplate any immediate action to bar him from the ballots.

The law provides that any political party, to function legally must be formed as central committee and organization in the odd year. According to this the Independent Progressive party which is supporting LaFollette, would have been organized in 1923 in order to legally name electors to go on the November ballot. This was not done, the secretary stated.

# TURLEY BUILDING IS SOLD

## GLOCKNER BROS. ARE NEW OWNERS

Through a deal closed Tuesday afternoon the Turley building, Second and Chillicothe streets, as sold to Alex M. Glockner and Adolph Glockner, who operate a hardware store at Gallia and Gay streets and a garage at Second and Chillicothe streets. The negotiations were handled by F. E. Adams, a local real estate dealer.

Alex M. Glockner told a Times man this afternoon their hardware store would be moved into the two corner rooms in the Turley building and that he expected it to be in its new home by February 1.

"We will occupy the two corner rooms and the other four will be made into separate business rooms and rented. The additional room will take the place of the present entrance," Mr. Glocker said.

"The rooms will be lowered to pavement level and a brick wall will be built to the roof between each one so they will be a separate union."

The Turley building was owned by Edgard T. Reed, L. C. Turley and Sons of the late Mr. and Mrs. Philo S. Cark. It was badly damaged by fire on November 10, 1923, and since then nothing had been done to it.

### 'TWAS BLUE MONDAY FOR KEEPS, BLAIR ADMITS

H. L. Blair, 2928 Walnut street, believes that yesterday was a real "blue Monday."

According to the Ironton officers, who took Blair to Ironton with them, the man turned out the lights on his car, and drove across the bridge without stopping to pay toll. His license number was secured, and charges were filed against him in the Ironton mayor's court, which he will be required to face, today.

## Portsmouth Gets Next Baraca Convention

Portsmouth was honored by being chosen as the next meeting place for the Baraca-Philathea convention which recently closed a successful convention in Cincinnati There were over five hundred delegates from all over the state, and the local delegates were highly elated over securing the convention for Portsmouth in October, 1925.

This is considered a great honor inasmuch as the local association has only been organized a little over a year. A feature of the convention was the big banquet held last Friday night in the Covenant Presbyterian church at which covers were laid for 325. The local delegates report a very fine meeting and bring back interesting reports which they will pass on to those who were unable to attend, at an early date.

Those making the trip included: Mr. George Vaughters, president of the local association; Mrs. Charles A. Winchell, Mrs. James Dawson, Misses Utella Woods, Marie Ervin, Ruth Vogel of this city and Miss Edna Glass and Mr. R. L. Helm of Sciotoville.

## Donahey Refuses to Take Any Action

COLUMBUS, O., September 30.—(By the United Press)—Governor Vic Donahey, of Ohio, today refused to take any action on behalf of Alexander Kuczik, 19-year-old Akron murderer, under sentence to be executed October 17.

Kuczik, said by alienists to have the mind of a ten-year-old, beat his cousin, Elizabeth Nagy, to death with a hammer last October in a fit of jealous rage.

Donahey today granted a hearing to the boy's counsel, the trial judge and the county prosecutor. After the hearing he announced that no action in Kuczik's behalf would be taken.

## Judge Blair Denies There is Working Agreement Between Ohio-Tennesse Counsel in Tobacco Cases

LEXINGTON, Ky., Sept. 30 — That there is a concerted effort on the part of counsel in Tennessee and Ohio, employed in cases against the Burley Tobacco Growers' Co-operative Association, was declared to have been developed here today in the taking of the deposition of Judge A. Z. Blair of counsel for contract breakers in Ohio.

Judge Blair came to Lexington to take the depositions of pool officials. He was greeted in the office of the notary by a deputy sheriff and was placed upon the stand.

Judge Blair admitted, under examination by Abe D. Waldauer, of counsel for the association, that he had been in conference with Ohio counsel in the office of Judson Harmon of Cincinnati, that Attorney-General Frank M. Thompson of Tennessee; Baxter Lee of Knoxville, attorney, and Judge L. D. Smith of counsel for the state of Tennessee in the Knoxville ouster suit, also were present. Although Judge Blair denied that there was a working arrangement between Ohio and Tennessee counsel, he admitted there was agreement that records in the two states be made mutually available.

A Mr. Whiteman (Judge Blair did not recall his initials) also was present. Whiteman was identified as the owner of stock in speculative warehouses and as operator of a loose-leaf floor in Covington, Ky.

## "Ain't We Got Fun"; Women May Vote Without Giving Age

Election officials are expecting a veritable deluge of feminine citizens at the registration booths October 2nd, 9th, 17th and 18th as a result of a change in the registration requirements.

For, mark ye, the ladies no longer need state their age. Instead of the column where that dread question "Age?" used to stand, an offensive question to many women voters, there is now merely the statement "over 21" and that is all that members of the fair sex need affirm when registering for the coming election.

## LOCAL NEWS

Samuel Layton, of Twelfth street, near Offnere, will, in the future, steer clear of a planer in the Charles Schirrman auto and carriage repair shop on Gallia street.

Sunday while doing some work on his own automobile he suffered the loss of the ends of the first two fingers on his right hand, the digits being cut off at the second joint. The piece of wood he was attempting to plane was small and slipped out of his hand, causing his fingers to get in front of the knife of the planer. Several years ago Mr. Layton lost the ends of the second and third fingers on his left hand on the same plane. He was treated at Schirrmann hospital Sunday.

Robert Bass, 15, and Robert Colflesh, 15, were the names of two youths taken into custody last night by county officers on suspicion of having stolen a Ford touring car which they had left at a local garage a short time before. The lads on being questioned by Sheriff Dunham admitted having stolen the machine from a man named Garrett Wells at Worthington, Ohio, yesterday and brought it to this city.

Sheriff Dunham in turn notified Worthington authorities and Marshal Talliday arrived here this afternoon and returned the prisoners and the stolen car to Worthington.

"Breaking a younger man's jaw with your fist is nothing to be laughed at," said Mayor V. R. Bierley Monday afternoon when he found Burns Atkins guilty of assault on Virgil Atkins and sentenced him to 90 days in jail, in addition to a fine of $50 and costs.

Sunday he drifted back to New Boston and the village officers placed him under arrest.

In court yesterday he entered a plea of guilty to the charge, stating that he did not want the case to go to a grond jury. In oredr to fix the degree of punishment Mayor Bierley heard several witnesses in the case Monday afternoon. Adkins was taken to the county jail today to begin his sentence.

## IN NOAH'S FOOTSTEPS

MOUNT ARARAT, traditional landing place of Noah and one of the oldest landmarks in history, is suggested by the Armenian government at Erivan as an international park dedicated to the advancement of world peace. By what irony of fate is this most forbidding of sites and this center of bloodshed and hatred offered to the service of peace on earth! Perhaps it was the thought of the authors of the proposal that international peace should take root where there is the least of it.

Mount Ararat is 50 miles from the dusty lethargy of Erivan. Much of the intervening space is filled with rice-paddies where the water-buffalo grazes. Through the midst flows the rapid Araxes river, which must be forded. Between the river and the mountain is a no-man's land, terrorized by marauding bands of Kurds, whose passion it is to lie in wait for travelers, kill and rob them, and then skip across the frontiers into Russia, Persia or Turkey. For Ararat is the giant landmark at the point where these countries come together.

Between the Tartar Kurds and the Armenians the bitterest hostility is manifest, since on the map Armenia claims sovereignty over the mud villages where the banditti disport themselves when they choose to come down from their mountain eyries. These freebooters ride fast and shoot straight and have no compunctions. If a traveler is lucky enough to get a chieftain to take him into the sheepskin tents of one tribe, it is considered a grand joke on the hospitable nomads when an adjoining tribe raids the camp, breaks up the party and kills the guests.

If one is not murdered on the way to the mountain, then there is the problem of the parching climb through lava-blocks piled like lumps of sugar in a bowl, and thence over the steep snow-slopes to an altitude of more than 17,000 feet. The funicular railway, if it could be built, would obviate the lesser discomforts. But Ararat rises 12,000 feet above the plain, and most tourists would be sick and dizzy from the sudden change, at a height half a mile in excess of that of Pike's peak. Noah and those who have climbed the mountain since his day made the ascent more gradually.

Altogether, the invitation to American capitalists to put their money into a pleasure-resort on Ararat's snow-capped, storm-vexed brow does not appeal to those who know anything about the mountain.

## NEW YORK DAY-BY-DAY

BY O. O. McINTYRE

NEW YORK, Sept. 30.—Gotham is filled with men who ride on the crest of the wave for awhile—and then disappear. They sink. Nobody hears of them again except for a hurriedly scribbled note or a telephone call for a quick loan.

From the pleasant purr of Fifth Avenue they drift to the hideous jangle of Avenue A. They seem to have expressed their accumulative ability in one shot. And then they wait around for something to happen, believing it was genius, not accident that brought a taste of fortune.

One may comb the East Side streets and find scores of men once pointed out in cafes for money-making prowess. Some were on the right side of the market in a sky-rocketing break and others had a single idea that brought quick and profitable returns.

When the tide turns they lose courage. And then just wait. They cannot face the ordeal of beginning over again. A wise old Wall Street financier declares he never knew a failure who didn't prime himself with the false courage of "something is bound to happen."

New York is one place in the world where something doesn't happen without effort. The modus operandi of the town is action. You see it expressed everywhere in darting taxis, brisk delivery wagons, racing limousines and hurrying pedestrians.

It is not a skidding highway to success. It is a long, rocky and uphill road. I can count five men of my acquaintance who five years ago were ensconced in fine apartments. They made it fast and they spent it faster and today in hall bedrooms they await a turn of fickle fortune.

Sudden wealth followed by sudden poverty is one of the most tragic things in life. Most of these men will tell you had they observed ordinary thrift to tide them over lean days they would have been easily able to stem the tide when the bad breaks came.

---

Incidentally there is one man who cut quite a wide swath on Broadway seven or eight years ago on the proceeds of a stock promotion scheme that came perilously near landing the promoters in Atlanta. Today he operates a calliope on one of those advertising motor wagons.

---

It was the shop window of one of those lingerie shops filled with intimate things people lately talk about openly. A bashful pair of young lovers drifted along from window to window. They came to it. Each looked and hurriedly turned their heads away. "Fifty to one shot they were not born and raised in New York," said a hardened old cynic who watched them.

---

Which reminds me that until I came to New York I had never seen a woman smoke a cigarette in a public cafe. Dining alone one night a woman across from me touched off a match and lighted one. After awhile it went out. There were no more matches on the table. She looked appealingly around. No one offered help in the dilemma. Finally in desperation I offered aid and in my nervousness touched off some fringe that hung from her hat. There was a sputter and there seemed only one thing to do and that was to dash a glass of cold water on her. I have always thought it would have made good motion picture material for the country cousin and the city gal. In the movies perhaps I would have married the girl, but the best I got was her murmured indignation to the waiter who came bustling up. As I recall she said I was an "awkward fool."

---

In my dancing school days I was not considered awkward but quite graceful. Mary Henking and I won a sponge cake for waltzing through a circle of egg shells without touching one. There was always dissatisfaction among some at the verdict. An aunt of mine was one of the judges.

**SONNET**

What can I give thee back, O liberal
And princely giver, who has brought the gold
And purple of thine heart, unstrained, untold,
And laid them on the outside of the wall
For such as I to take or leave withal,
In unexpected largess? Am I cold,
Ungrateful, that for these most manifold
High gifts, I render nothing back at all?
Not so; not cold—but very poor instead.
Ask God who knows. For frequent tears have run
The colors from my life, and left so dead
And pale a stuff, it were not fitly done
To give the same as pillow to they head.
Go farther! let it serve to trample on.
